

GroupCalendar provides the possibility to display activities from multiple users, teams, resources and resource-groups. It supports several views with the option to define user-specific settings to meet individual requirements. Furthermore, the GroupCalendar enables users to easily reschedule activities via a drag&drop functionality.

Scheduling Users, Teams and Resources

- Defining/selecting/displaying
 - users, teams, facilities, resources and/or resource groups

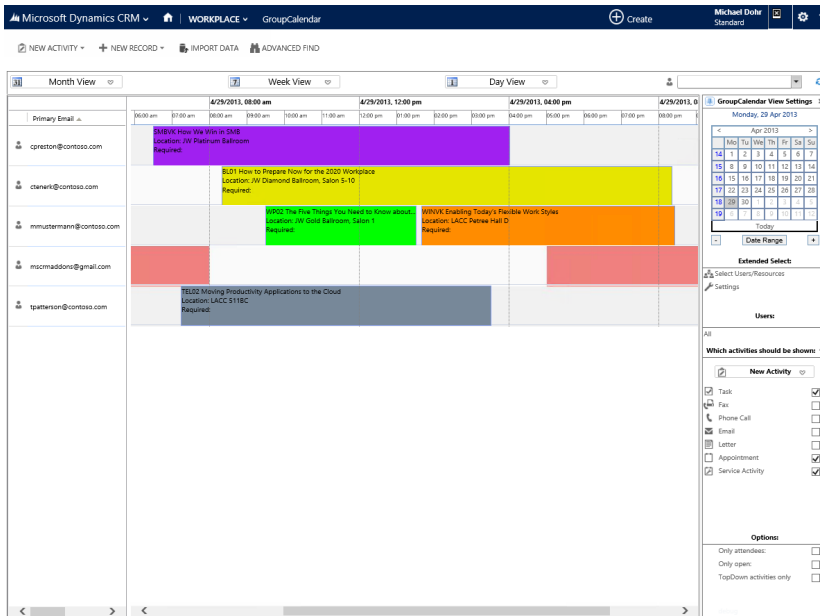

Views

- Day-, Week- and Month view
- Gantt-view *
- List-view
