ACCESS MORE PRODUCTS FASTER, EASIER AND CHEAPER

ALL PAYMENTS, RISK, SHIPPING AND COMMERCE VENDORS FUSED INTO ONE DYNAMIC API AND INTERFACE

Problem

To connect and update 100's of vendor API's and manage their many interfaces, billing & reporting formats results in

- ❖ High operational cost
- ❖ Resource taxation and distraction
- ❖ Limited choice and vendor dependency

Alpha = All vendors one interface

- ❖ Revenues increase: More products to sell
- ❖ Operational savings: 1 API & Interface vs many
- ❖ Resources freed: Alpha manages all vendors
- ❖ Design freedom: Routing across many vendors
- ❖ Largest functionality pool: 1 click, no coding
