Pakistan Localization

Tax management, *simplified*

**A modern, highly effective solution for managing tax payments
in accordance with government tax regulations**

Businesses spend considerable time and incur business risk while managing taxation and complying with local tax laws. Systems Limited's Pakistan Localization is a pre-built solution for Microsoft Dynamics 365 that provides a wide range of capabilities that reduce the time and effort required to maintain tax data, process tax settlement, and generate reports according to local tax authorities. It minimizes business risk by reducing errors and rework.

Ready-to-deploy Solution

Instead of requiring a custom development project, our Pakistan Localization is a ready-to-deploy solution that maximizes value and reduces additional costs. It supports withholding tax for vendor and customer advances, different withholding tax rates on a single purchase order, and fully compliant withholding tax payments to tax authorities.

Features

Withholding Tax Support Record withheld income tax in Accounts Receivable		Withholding Tax on Advances Record withholding tax on vendor and customer advances	
Withheld Sales Tax Record sales tax withheld at the time of invoicing		Separate Goods and Services Tax Withhold income tax for goods and services separately in a single purchase order	
Easy Tax Configuration Set up purchase types, SRO/schedule numbers, and legal status categories		Scheduled Tax Payment Configure withholding tax settlements for scheduled payments	
Fully Compliant Reporting Generate reports that comply with federal and provincial requirements		Tax Certificate Reports Create detailed and dynamic reports on withholding tax certificates	
CPR Support Add Computerized Payment Receipt (CPR) numbers against withheld income tax			

Benefits

 Ensure complete taxation compliance and minimize business risk	 Pre-built solution reduces implementation costs and improves time to value	 Easily reconfigure according to regulatory changes
