

Avocette SOHEMA Case Management System

Avocette⁺⁺
TECHNOLOGY TOGETHER

Avocette SOHEMA Case Management System on the Azure Cloud

Challenges

- Need to track, monitor and report on client case information
 - Cost-effective system to reduce or eliminate otherwise massive paperwork burden
 - Efficient effective workflows and processes
 - Meets funder outcomes reporting needs
-
- Fewer resources to meet increasing demands
 - Increased requirements from funders to provide outcomes reporting
 - Increased regulatory and accountability guidelines

Ideal Solution

- Intuitive, safe and reliable case management system residing on Azure Cloud
 - Affordable solution that automates digital data capture and business processes
 - Configurable, scalable system that can accommodate evolving business requirements and processes
-
- Meets the need to deliver efficient, effective and low-cost services in a personalized and timely manner
 - Meets the complex data and reporting requirements of regulators and funders

Desired Outcomes

- Safe, consistent, reliable client data capture and management in a secure cloud environment
 - Near-paperless, efficient, effective and controlled business processes
 - Flexible solution that evolves with changing business needs and new programs
-
- Cost savings from reduced paper-based workload and storage requirements
 - Reduced system and overhead costs
 - Faster information processing
 - Happy, well-served clients

Avocette SOHEMA Case Management System on the Azure Cloud

Agile, Scalable and Affordable purpose-built Child Protection Case Management Software

Configurable Capability

- Core out-of-the-box functionality based on industry best practices for service delivery
- Configurable framework to match your business processes and specific data requirements
- Client-centric architecture

Infinite Scalability

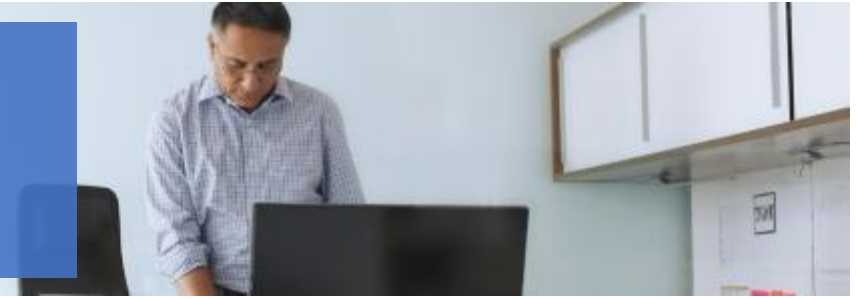

- Able to evolve and expand as your business changes and grows
- Rapidly and significantly increase your user base without compromising system performance or stability

Azure Cloud Ready

- Enterprise-strength data security
- Elasticity, Flexibility and Scalability
- Affordability
- Agility
- Ease of Deployment

Avocette Technologies Inc.'s SOHEMA case management system provides safe, consistent, reliable client data capture, management and reporting in a secure cloud environment.

Avocette SOHEMA Case Management System on the Azure Cloud

Agile, Scalable and Affordable Case Management Software in the Secure, Flexible Azure Cloud environment.

Solution Alignment

Cloud Protection

- Enterprise-strength data security

The physical security and global expertise of Microsoft

Enhanced Scalability

- Elasticity, Flexibility and Scalability

Increased capacity for compute, storage and access

Affordability

- No more leasing hardware up front, no more maintaining a data center, and no more over-provisioning your capacity

You only pay for what you use and how long you use it
