QUICK AND EASY OFFICE 365 MIGRATION

Migrate to Office 365 (Exchange Online), hosted Exchange or on-premises Exchange without installing or maintaining software.

Quest™

Easy, secure migration to Exchange or Exchange Online

Email is a critical communication tool for organizations of all sizes. But as your business needs change, so do your email infrastructure requirements. For many organizations today, that means taking advantage of the power and flexibility of Microsoft Exchange, either on premises or in the cloud. If your business is ready for Exchange, don't let worries about how you can possibly complete your migration project on schedule and without disrupting the business hold you back. You just need the right Exchange and Office 365 migration tools.

On Demand Migration for Email (ODME) is a cloud migration service that scales on demand to meet your migration requirements. Whether you have a small business with a handful of users or a large enterprise with thousands of users, ODME enables you to migrate your mail, calendar and tasks to Office 365, Exchange 2010/2013/2016 or hosted Exchange — without the burden of an on-premises migration infrastructure. For added convenience, ODME offers an online portal that enables you to configure, start and monitor a migration project from anywhere in the world.

Quest® ODME supports migration from a wide range of sources, including Google Gmail, IBM Notes, GroupWise, POP/IMAP, Sun ONE/iPlanet, Zimbra, Exchange and Office 365.
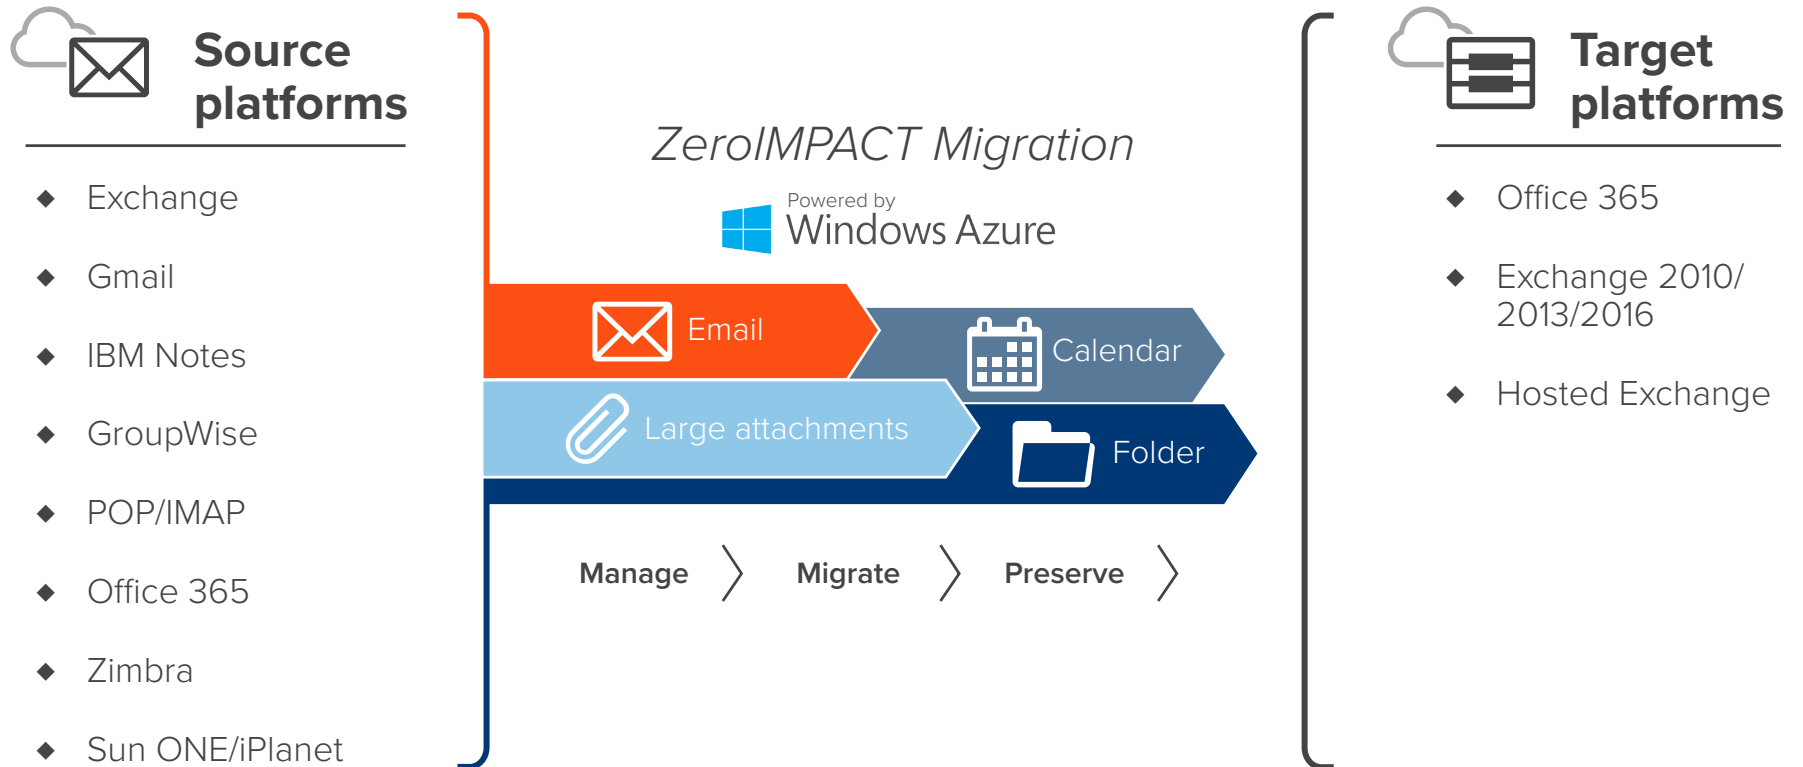

KEY BENEFITS

Here are just a few of the benefits the solution delivers:

- **SaaS platform —** Provides all the benefits of software as a service (SaaS), including eliminating the need to install or maintain a solution on premises

- **Multi-threaded migrations —** Supports multiple simultaneous migrations to help ensure on-time project completion

- **Scalability —** Scales up and out to seamlessly migrate as many mailboxes as needed

- **Flexible billing —** Gives you the choice between pay-as-you-go or traditional prepaid licensing

> "The software was extremely easy to use and performed exactly as expected. It assisted with a quick 2-week turnaround."
>

- Hosted Exchange

On Demand Migration for Email enables you to quickly and securely migrate email, calendar and folder data to Office 365 and Exchange — without having to install or maintain migration software.

Quest

Features

SIMPLIFIED PROJECT MANAGEMENT

- **Fast deployment —** Skip the task of installing a solution on premises and advance your project timeline.

- **Attachment management —** Automatically migrate attachments to OneDrive for Business with a link from the Exchange message for easy, direct access, in accordance with file collaboration and management best practices.

- **Intuitive console —** Get consolidated access and control, including real-time status of the entire migration.

- **Live logging —** Monitor the progress of the migration, including items that may warrant further investigation.

- **Deduplicator —** Re-migrate data without creating duplicates using a phased migration approach.

- **Data filtering —** Migrate only what you want by filtering calendar and email events by age or source folder name.

COMPREHENSIVE AUTOMATION

- **Cloud-based forwarding —** Streamline the transition process with automated mail routing updates in some scenarios.

- **Label conversion —** Ensure an accurate migration; labels are migrated as categories or folders while maintaining their nested structure.

> On Demand Migration for Email simplifies project management, automates migration tasks and prevents data loss to deliver rapid ROI.

DATA LOSS PREVENTION

- **Secure Azure-based architecture —** There's no better platform for running a migration to Office 365 than Microsoft's own cloud service environment hosted in your region. Rest assured, with On Demand Migration for Email, you maintain the security of your proprietary and confidential data, since no email is stored in Microsoft Azure at any time during the migration process.

RAPID ROI

- **Multi-threaded migration —** Run multiple simultaneous migrations to help ensure your project is completed on time.

- **Contextual help —** Get in-line videos and help based on your current location and activity to keep the migration moving smoothly.

- **Global support** — Complete your migration project on time and on budget with world-class assistance from Quest.

Quest

FITNESS CHAIN FACILITATES MERGER WITH QUICK EMAIL MIGRATION

SATS ELIXIA consolidates Exchange 2010 into Office 365 in just one weekend with the Quest SaaS migration solution.

CHALLENGE

SATS ELIXIA is a leading fitness chain in the Nordic region. The company's 435,000 members enjoy modern, functional and individual personal training and group exercise at 160 training clubs. For help with an email consolidation to Office 365 after a merger, SATS ELIXIA turned to Quest.

RESULTS

SATS ELIXIA engaged a consulting firm to help them pick the right migration tool. The company recommended ODME, the software-as-a service migration solution from Quest. Using the tool's web interface, the firm configured the settings needed for a given set of migrations, saving a lot of time. Plus, any migration could be scaled simply by adding more accounts to the migration account pool to allow multi-threading.

"On Demand Migration for Email is a money saver in two ways: It ensures end-user productivity and also saves IT many hours of work."

Peter Sandström, IT Operations Manager (source: Customer success story)

Customer profile

Company	ISATS ELIXIA
Industry	Health & fitness
Employees	7,000

Facilitated a smooth merger by **migrating 1,000 mailboxes** from Exchange 2010 to Office 365 in **one weekend**

Ensured no business disruption by providing users with **easy, clear access** to all their email

Reduced costs and effort by eliminating the need to set up local servers and software

Saved approximately **80 hours** of work by providing an easy-to-use interface and **automating migration** jobs

Quest

SMALL BUSINESS COMPLETES EMAIL MIGRATION WITH NO DOWNTIME

Infonett Roros chooses the Quest ODME migration solution to save time and increase IT efficiencies.

CHALLENGE

Infonett Roros AS was using Microsoft native tools for its email migrations and was looking for an alternative solution. They evaluated Quest On Demand Migration for Email (ODME) and were impressed.

RESULTS

With ODME, Infonett Roros AS was able to complete its email migrations up to 10 times faster than previously, with little to no impact on their users. By automating complex manual processes, ODME minimized risk and disruption to the business while at the same time improving security and compliance. With faster migrations, the IT team has more hours in their week to focus on strategic initiatives for their business.

> "It's easy and reasonably priced."
>
> *Anders Prytz, Product Manager (source: TechValidate, TVID B60-E1A-F58)*

Customer profile

Company   Infonett Roros AS
Industry   Computer services
Employees   Small business

Completed migration tasks **10x faster** than the previous solution, resulting in IT cost savings and improved efficiency

Delivered **easy installation** and **broader functionality** than the competition

Delivered a **zero impact migration** with minimal downtime, keeping the business running

Saved four hours a week in migrations, giving the IT team more time to focus on other business needs

Quest

IMMEDIATE ROI FOR MEDIA & ENTERTAINMENT COMPANY

WLFI TV Corporation improves its Office 365 email migration process while saving money and minimizing end-user disruption.

CHALLENGES

WLFI TV was looking for a solution to improve its email migration process with Office 365. Specifically, they wanted a solution that would reduce IT costs while improving IT efficiency and minimizing risk and disruption to the end users during the migrations.

RESULTS

Using Quest ODME, WLFI TV Corporation was able to migrate over 500 mailboxes to Office 365. Thanks to the ease of migration offered by ODME, the company experienced an immediate return on their investment, with lower IT costs and better efficiency. Plus, end users were able to continue to work during the migration, so disruption to the business was negligible.

> "It's simple, easy to use platform and provides good cost of services."
>
> *Jon Gillen, IT Administrator (source: TechValidate, TVID 36C-0F0-B66)*

Customer profile

Company WLFI TV Corporation
Industry Media & entertainment
Employees Medium enterprise

Delivered immediate ROI through **reduced IT costs and improved efficiency**

Was **simple and easy** to install and use

Delivered a **zero impact migration** with minimal downtime, keeping the business running

Maintained **end-user productivity** during the migration

Quest

LOCAL GOVERMENT SAVES TIME AND MONEY MIGRATING FROM NOTES TO EXCHANGE

City of Meridan chooses Quest ODME to replace native Microsoft migration tools for their email migration.

CHALLENGES

The city of Meridian, Mississippi, was planning an email migration from Notes to Exchange. They had previously used Microsoft native tools for their migrations and were evaluating other options. A peer or partner recommended they evaluate Quest ODME for their migration. The city chose ODME due to its ease of installation and use, excellent technical support, and broad range of functionality.

RESULTS

Using ODME, the city of Meridian was able to complete their Notes to Exchange migration within their targeted timeline and quickly realized IT cost savings from automating complex manual processes. In fact, they achieved ROI within three months of the migration.

> "Smooth migration from Notes to Exchange. It worked well and the support was excellent."
>
> *Dan Talbert, IT Manager (source: TechValidate, TVID EDD-AC8-88C)*

Customer profile

Company City of Meridian, Mississippi

Industry State and local government

$ Reduced IT costs by up to **$25,000** and **realized ROI within three months** of the migration

Automated complex manual processes, **saving more than 20 hours per week**

ZERO Completed a **zero-impact migration** on schedule, minimizing risk and disruption to business operations

Provided **excellent customer support** throughout the migration process

Quest

AGENCY SLASHES MIGRATION SCHEDULE IN HALF

ADA AB reduces IT costs and minimizes risk by performing its email migration with Quest ODME.

CHALLENGES

ADA AB was planning a migration from Novell GroupWise to Office 365 and wanted a solution that would reduce IT costs and minimize risk and disruption to daily business operations, both during and after the migration. They also hoped to reduce the volume of calls to their help desk. After evaluating Microsoft's native migration tools, ADA AB decided to also evaluate Quest ODME.

RESULTS

Using ODME, ADA AB was able to migrate over 500 mailboxes more than twice as fast as their planned timeline in a zero-impact migration. They have been able to automate complex manual tasks and now complete many of them as much as 10 times faster. In addition, ADA AB saves up to nine hours a week on IT processes and can use that time to address other critical business needs.

Customer profile

Company ADA AB
Industry State and local government

Completed the migration in **half the time** scheduled and now saves up to **nine hours a week** in IT processes

Reduced IT costs and delivered **ROI in under three months**

Completed a **zero-impact migration** ahead of schedule, minimizing risk and disruption to business operations

> "It has saved us a lot of time."
>
> *Johan Jansson, Server Administrator, rated this email migration solution a 10 out of 10 (source: TechValidate, TVID BFB-842-D73).*

Quest

INDUSTRIAL MANUFACTURER OPTS FOR EASE OF USE

Weir Group selected Quest ODME as a comprehensive email migration solution that is easy to install and use.

CHALLENGES

Weir Group PLC was looking for a comprehensive Notes and email migration solution. They had evaluated or used a variety of tools, including Microsoft native tools. They wanted an easy-to-use solution that would address their complex needs with minimal downtime while maximizing time and cost savings.

RESULTS

Weir Group had used Quest solutions in the past and selected ODME for its ease of installation and use, better functionality and range of functionality, and the excellent customer support services offered by Quest. The company quickly realized time and cost savings with the ODME tool and was able to automate many complex manual processes. An added benefit is that the company was able to modernize a legacy IT infrastructure.

> "Quest has simplified the migration process more with each release/upgrade."
>
> *Philip-Lee Kinsey, MCS Migration Engineer (source: TechValidate, TVID 26A-7F1-F22)*

Customer profile

Company   Weir Group PLC
Industry   Industrial manufacturing
Employees   Medium enterprise

Was **easy to install and use**, and delivered broader functionality than the competition

Saved up to 19 hours a week that can be spent on more strategic initiatives

Completed a **zero-impact migration** ahead of schedule, minimizing risk and disruption to business operations

Provided **excellent customer support**

Quest

METALS AND MINING BUSINESS MIGRATES ON TIME AND WITH NO DISRUPTION

H-E Parts International Crushing Solutions saves time and money with scalable email migration solution.

CHALLENGE

H-E Parts International Crushing Solutions was evaluating tools for an upcoming email migration. They had been using Microsoft native tools but needed a solution that would be easy to install and use, help save time and money, and scale to accommodate projects that varied in size or duration.

RESULTS

H-E Parts International chose Quest ODME because it addressed the key areas they were looking for. They are now able to complete tasks up to 10 times faster than their previous solution and are saving up to four hours a week that can now be devoted to other important business needs. And they can scale the tool depending on the size or expected timeframe of the migration project.

"The migration happened without any disruption and within the timeframe given to us."

Alisdair Hunter, IT Manager (source: TechValidate, TVID 14B-1D9-F1C)

Customer profile

Company   H-E Parts International Crushing Solutions
Industry   Metals & mining
Employees   Medium enterprise

Completes tasks up to **10x faster** than their previous solution and gives the company **four hours a week** to spend on other business needs

Delivered a **zero impact migration** with minimal risk and disruption to business operations

Reduced the help desk burden

Was **easy to install and use**, and will scale to the particular project or timeline

Quest

CONCLUSION

Whether you need to migrate from a legacy platform like IBM Notes or GroupWise, get back to Exchange after trying out Gmail, or consolidate an acquisition's on-premises Exchange into your Exchange Online, On Demand Migration for Email has you covered.

As a SaaS solution, On Demand Migration for Email requires no expensive and time-consuming on-premises deployment and scales instantly to meet your organization's unique requirements. Plus, it offers multi-threading, comprehensive automation and a secure Azure-based architecture to further speed your Exchange or Office 365 migration steps — helping to ensure on-time project completion while maintaining the security of your proprietary and confidential data.

On Demand Migration for Email helps you complete your migration project on schedule while maintaining the security of your proprietary and confidential data.
