

One integrated platform for
your management system
to support...

- ⊕ ERP
- ⊕ Lean
- ⊕ Compliance

That is very easy to
start with and use...

- ✓ No IT project.
- ✓ Single Sign On with AD.
- ✓ In English, Danish and German.

"The Gluu platform lets us find
new ways to eliminate waste, as
our processes - from order to
production - have become easier
to understand. Also, we save
a lot of time by no longer doing
paper registrations. Everything
is done directly in the app..."

Jacob Lund
Plant Manager

Make your way of working stick

Processes | Work Instructions | Tasks | Registrations

UNDERSTAND

Visual flows and work guides make it clear what should be done, who should do it and how it is done.

EXECUTE

Make sure that all tasks and registrations are done, monitored and recorded at the right time.

IMPROVE

Capture issues and ideas while working, make your changes and communicate in one, integrated flow.

The screenshot shows the Gluu mobile application interface. The top navigation bar includes 'MY OVERVIEW', 'PROCESSES', 'ROLES', and a search bar. The main content area displays a process flow for 'Inspect delivery' with steps: 'Morning delivery' (red circle), 'Inspect delivery' (blue box), 'Goods ok?' (decision), 'Stock goods' (blue box), 'Delivery complete' (green circle), 'Not ok?' (dashed line), 'Goods returned' (red circle), and 'Recurring iss' (diamond). A 'Select supplier' box is also visible. Below the process flow, there are sections for 'Responsibilities' and 'Comments'. The 'Comments' section shows a filter for 'Show All' and a date range '21/01/2018 - 22/03/2018'. A comment by 'James Davidson' is visible. The bottom of the screen shows a 'Daily quality inspection' form with fields for 'Order Number' (566852698), 'Add our internal order number', and checkboxes for 'quantity ok', 'no damages on packaging or products', 'product type correct', and 'Checkbox'. The form also includes a 'CANCEL' button, a 'DONE' button, and a question 'Order passes quality inspection?' with 'Yes' and 'No' radio buttons.
