

Powering today's **WORKFORCE**

and your digital workplace for
better tomorrow

"Inphiz is truly a great fit with Microsoft's Digital Capability Strategy"

Catharina Ljungberg, OCP Director Microsoft Sweden

Unite your global
workforce

Unified O365
experience

Enterprise
agility

Modernize legacy
systems

Increase employee
productivity

Getting the right information to the right user at the right time is getting more complex than ever. Today, employee productivity suffers from scattered information across silos, app-hell and multiple logins.

90% of all digital information is unstructured content locked in a variety of formats, locations and applications and is made up of repositories that do not communicate with one another. (IDC)

Companies with great ex outperform the standard & poor's (S&P) 500 by **122%**. (Accenture)

INPHIZ DIGITAL WORKSPACE

is a Microsoft Gold Partner, Digital transformation power platform which transforms employee experience at the workplace and delivers the first ever **unified experience**. Inphiz breaks down the hierarchies and silos and modernizes your legacy systems by **leveraging Microsoft O365** to deliver the right information to right user at right time on any device.

With Inphiz LICS model, you accelerate engagement, collaboration, knowledge sharing, automated business processes and create a modern workspace for your employees.

MODERNIZES YOUR EXISTING TECHNOLOGY BY REUSING THE ALREADY DONE INVESTMENT

Inphiz is an API-driven enterprise tool, delivered as a SaaS. It provides unified employee experience (EX) and creates higher engagement for your organization. Inphiz is ready to integrate with any 3rd party solution and with O365/Azure. Inphiz is delivered with corporate branding, authentication and high-security. This enables us to implement your bespoke productivity solution quickly and effectively.

Digital transformation, significantly contributes to enterprise bottom line.

"The Inphiz framework is the missing link"
Richard Lind, Former CTO Microsoft

"Vibrant information one fingertip away"
Stefan Dedler, Merck Group

"All you need just in time - whenever wherever"
Therese Hjälmlner, Alektum Group
