# INTRODUCING TREASURY56

Helping businesses improve productivity and boost operational efficiency  
Whether you're a distributor with your own self-storage facilities, a brand owner with your own retail back rooms, or a Small Office Home Office (SOHO) running on multi-site storage locations, Treasury56 comes in to help businesses like you to manage your inventory and ensure efficient operations – so all you need to do is to focus on your business.

Treasury56 is developed with our rich supply chain domain, coupled with an intuitive interface. It allows business owners to have a quick overview of their inventory status – managing the inflows, outflows with ease.

## **Do these Use Cases sound familiar?**

- Managing multiple excel spreadsheet based on SKUs.
- Juggling multiple external systems
- No immediate visibility of inventory movement

**Treasury56** addresses these and more.
