Put Your Building to Work
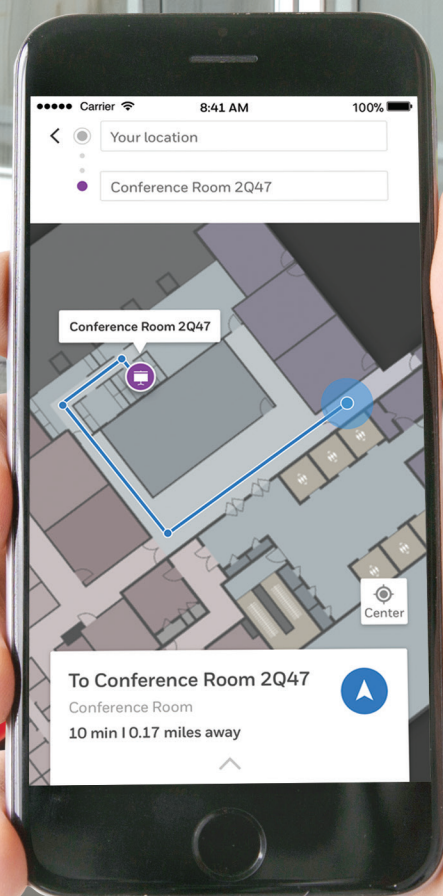

Honeywell Vector Occupant App

Connect People to Your Building

Connectivity has the potential to fundamentally reshape how buildings help you fulfill your goals.

Honeywell mobile apps and technologies for the Internet of Things (IoT) extend your capabilities with intelligent workspaces that give you and your occupants powerful new insights and interaction.

Discover the Honeywell Vector Occupant App

Engage your building occupants and strengthen your brand with technology that links your space to their results.
Whether they're in your building every day or as a one-time visitor, the Honeywell Vector Occupant App gives your occupants versatile convenience and sophisticated control.

Starting with the intuitive familiarity of a mobile device, you'll connect your users to the impressive potential of your building with digital ID, secure access, wayfinding, space and comfort feedback, a mobile message board, space reservation and an ever-growing range of location-aware capabilities. Moreover, the app can be customized to showcase your brand and aesthetic.

The result:
Security. Efficiency. Comfort. Savings. You can enhance them all – along with convenience, first and foremost.

It's one clever app for iOS and Android that's built to wow even the savviest of tech-savvy users.

Smart Convenience, Sophisticated Control

You have the option to include any or all of these features in your app, and more capabilities are always in the works.

Digital Photo Identification

Crisp, current digital photo ID on a smartphone.

Save the costs of printing badges.

5-Star Space Rating

From a boardroom to a restroom, users can quickly score any area and add tags, photos, or comments.

Users get instant confirmation of feedback.

Avoid the costs and delays of feedback via phone, email, or paper.

Promotes maintenance accountability and faster, more efficient responses.

Mobile Message Board

Supplement or replace physical notice boards with digital pop-ups of events, safety procedures, etc.

Save costs and waste of printed notices.

More efficient communication improves engagement.

Powered by a versatile "Engagement Framework" – a flexible toolkit for sending informative "cards" via the app, based on time, location, and users.

Indoor Wayfinding

Easy turn-by-turn guidance to locations and people.

Save costs on physical maps and signage.

Facility teams gain deeper insight into traffic flow.

Secure Access Control

Access credentials are easier to manage and update.

Save costs and hassles of physical cards and fobs.

One-Click Comfort Feedback

Users easily flag areas that are too hot or cold.

Users get instant confirmation of requests.

All requests include location, helping facility managers quickly address common trouble spots.

Space Reservation

Find, reserve, and navigate to bookable spaces such as meeting rooms.

Reserve in a click from an interactive map, using Microsoft Office 365® cloud functionality.

Location-aware search supports preferences such as time, number of seats, specific amenities, etc.

Reservations show as upcoming events on a user's mobile device and in Microsoft Outlook®.

Insight and Efficiency for Building Managers

The Honeywell Vector Occupant App is equally useful for facility teams, whether you operate one site or many.

Secure, efficient digital IDs on user smartphones are easier and more cost-effective to issue, track, and update.

Promote overall site security with more sophisticated, secure credentials, and control proxy access.

Enhance experiences for employees and visitors with versatile convenience and smart control that stands out.

Gain deeper insights into how occupants use your site, what they prefer, and which issues need attention most.

Take action to quickly resolve issues reported by users.

Improve facility management with tools and insights that help your teams to respond more quickly and accurately.

Simplify complex buildings with easier navigation and interactive convenience.

White Labeling – Your App, Your Brand

Showcase your brand: White labeling lets you fully customize the occupant app with your own identity and aesthetic.

From public institutions, such as airports, hospitals, and convention centers, to communities like apartments and university campuses, the Honeywell Vector Occupant App can be branded with the attributes you prefer, such as your name, logo, color scheme, tagline, and more.

Give your occupants and visitors the convenience of wayfinding as well as other capabilities of a smart, interactive app that reinforces the reputation you've earned and further builds your brand.

Connect to Better Experiences

The Honeywell Vector Occupant App is part of the growing portfolio of Honeywell Connected Services.

Find out how you can create exceptional experiences for your building occupants and visitors.
