

**LEADERBOARD GLOBAL:**

Top 10 colleagues who **stand out the most**, today, in every digital competence within my company.

**MY TEAM LEADERBOARD:**

Top 10 colleagues who **stand out the most**, today, in every digital competence within my immediate environment.

COOL!

# TEAMS CHAMP

**MIS LOGROS**

**MI CONSEJO DEL DÍA**

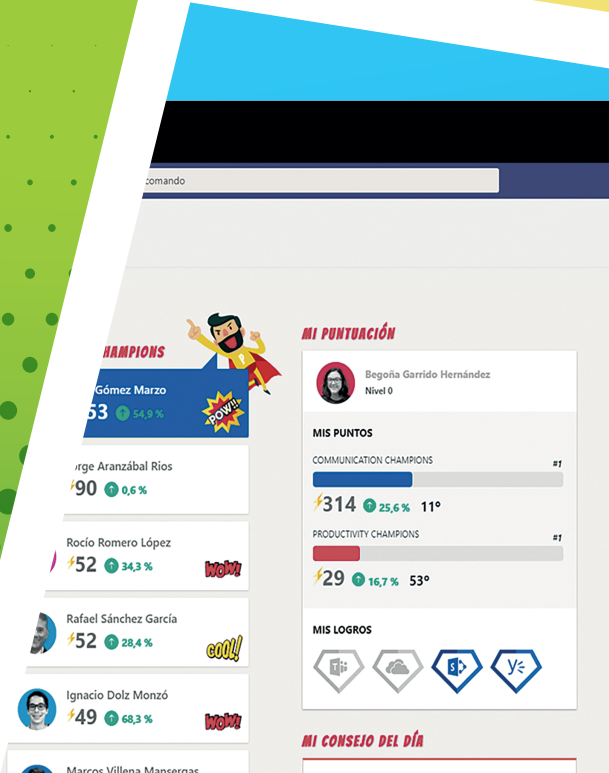

**¿CÓMO HABILITO EL CONTROL DE VERSIONES EN UNA LISTA O BIBLIOTECA?**

Para habilitar el control de versiones en una lista o biblioteca debes seguir los siguientes pasos:

1. Abre la lista o biblioteca que te interesa.
2. Haz clic en **Configuración** y, a continuación, en **Configuración de biblioteca o configuración de lista**.
3. Haz clic en **configuración de control de versiones**.

**MY TIP OF THE DAY:**

An Office 365 best practice for me

**MY SCORE:**

**Wow!**

- Only I know my score (Champs⚡), unless I'm a **champion** and in the TOP 10.
- I can see what's **my position on the whole company and on my team**.
- If my position gets better or worse, I'll see red or green arrows.
- You can give Champs to your team if you believe they've done a good job.

# WHAT'S TEAMSCHAMP?

TeamsChamp is a **SaaS product** that end-users can safely view in their Teams and on the web. It aims to **boost the skills** required for the **digital transformation** of the company, through the gamified use of Office 365 and other tools.

## THE SECRET FORMULA

TeamsChamp accesses **aggregated Office 365 usage metrics** from each user:

- Without accessing messages or content
- TeamsChamp accesses the **sum value of the variables** obtained from **Office Graph API**, adding interaction values and wills.

The calculation formulas for each competency add up weighted processed metrics, such as:

- Number of **shared documents**
- **Open Teams** chats
- **Published posts** on Yammer
- **Viewed documents** in SharePoint
- Etc.

- 
- Each of them will point towards digital communication or productivity.
  - Values are calculated in Time window.
  - Scientific algorithms are preprocessed and applied.
