

Business Process Automation

Digital Lending

Automating [Customer Acquisition](#) & [Customer Service](#) Processes

Transforming

Digital Lending Experience

ProcMATE solution provides banks and financial institutions with a BPM toolset that can be used to model and automate the Digital Lending process with a view of optimizing costs and improving efficiencies.

It automates business processes and use the underlying machine learning layer to continuously monitor the transactions thus helping the customer by providing real time eligibility of loans and credit approvals. A customer can be engaged using Chabot, SMS, twitter, Facebook, WhatsApp, LinkedIn, etc.

The Lending Flow

Challenges

- ✓ Conversion time adds to customer drop-offs
- ✓ No real-time eligibility check leads to an experience which is not optimal
- ✓ Mis-selling is prevalent due to non guided flows

Benefits

- ✓ Digital and Social channels lead to exponential reach
- ✓ Companies optimize cost on loan provisioning
- ✓ Matching of loan product to profiles add to quality of loans

Solution

- ✓ Customers get real time eligibility and credit approvals
- ✓ Guided flows leads to a better product-profile match
- ✓ Customers connect and engage across channels of choice improving stickiness

Measures

- ✓ Cost optimization
- ✓ Conversion quality
- ✓ Percentage opting for self-service mode
