

Deploy and customize workplaces at large using Microsoft infrastructure

Spinpanel WorkSpace

Spinpanel WorkSpace and **Microsoft 365 Enterprise** can quickly and easily transform your Windows 10 device into a modern workspace without compromising on security, management, or user experience.

Conveniently customize and deploy the same template to multiple users at once.

Reseller benefits of WorkSpace

Stop selling licenses and start selling solutions.
Customer loyalty starts here.

- Deploy a custom WorkSpace template to multiple users at once
- Use machine policy templates to reduce human configuration errors
- Tailor your offer by setting margins per service and per customer
- Insight into Microsoft usage and costs

Why WorkSpace

Spinpanel WorkSpace combines the best of Office 365, Microsoft Azure, and Windows 10 to enable businesses to deploy and manage a modern workplace using Microsoft infrastructure, without the need to configure end-user devices.

Pricing

WorkSpace is built on the Spinpanel Essentials platform. In order to use and manage WorkSpace, a Spinpanel subscription is required. A Spinpanel platform subscription is a fixed recurring monthly fee. WorkSpace is billed based on the number of users.
