dotConnect background?

- dotConnect is a UK based company founded in 2017 by Mohamed Gamil & Saj Shahid, ex Al Rayan Bank employees who have led a successful/unique digital transformation journey for the bank between 2009 to 2017
- Our vision is to provide our clients (financial institutions) with the latest technology platform that provides a unique user experience in the most cost effective way, with an agile & quick to market implementation plan.
- The first implementation for dotConnect #SocialBanking solution is Al Rayan Bank UK, replacing its existing Online Banking and introducing Mobile Banking fully integrated with Salesforce. The bank is currently in the testing phase and preparing for the pilot roll out.
- The solution is fully compliant with the new PSD2/SCA regulations which banks need to conform to by September 2019.
- We've established a partnership agreement with Zensar <https://www.zensar.com/> to provide clients with more assurance about 24*7 support & continuity of services.

Solution ...

The dotConnect #SocialBanking AI platform enables powerful and engaging digital channels to the customers of Financial Institutions.

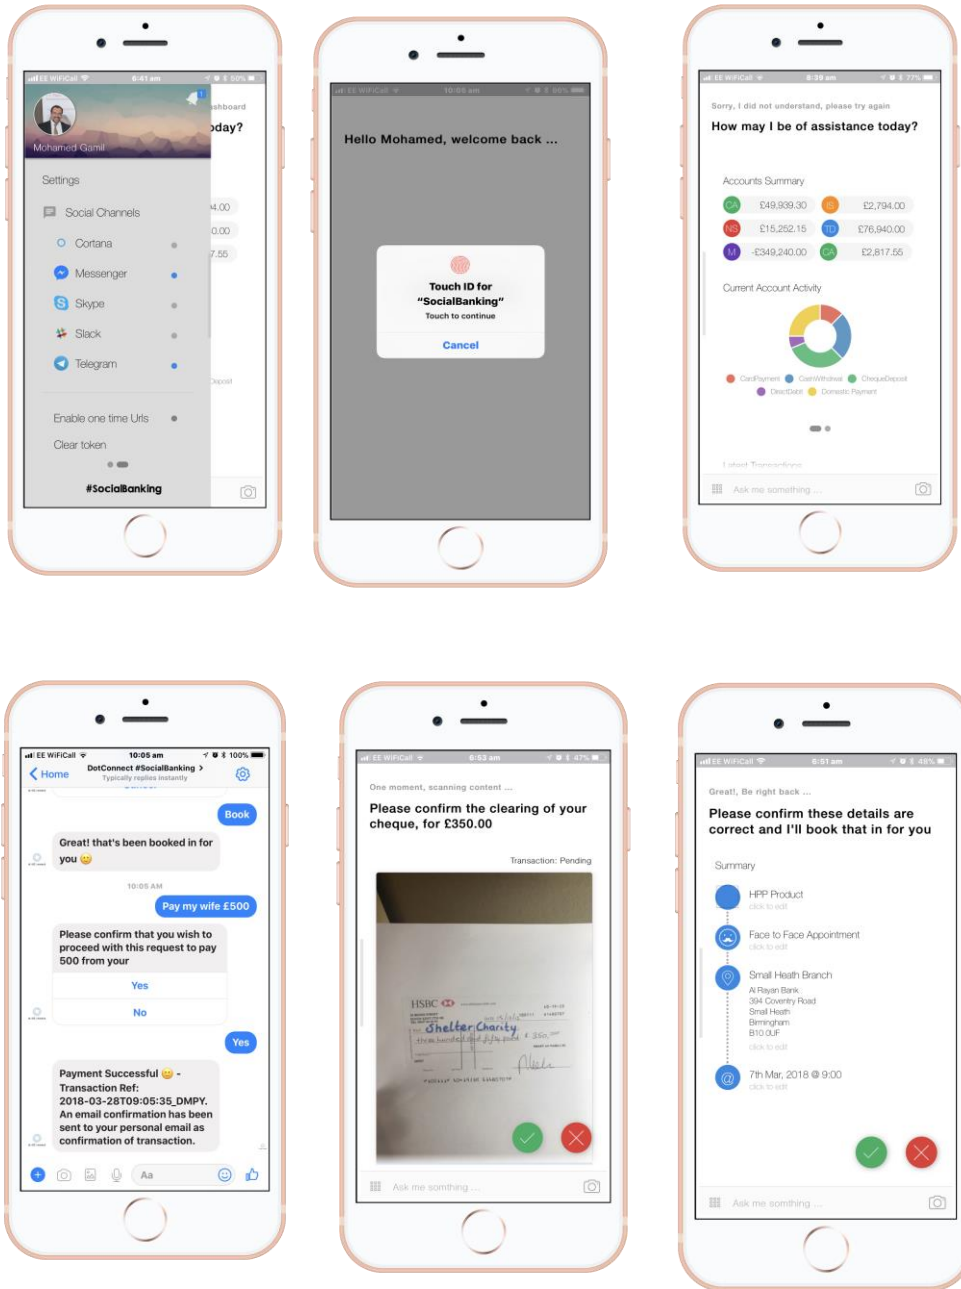

Delivering both intuitive mobile and desktop experiences using Microsoft Azure Cloud services whilst keeping customer data within the confines of the Bank's IT systems.

Chat-bot, a digital assistant utilising Artificial Intelligent Cognitive Services, brings an additional way for users to interact with banking services. Optionally this feature can be extended to third party messaging applications, allowing users to perform banking tasks without launching the mobile application.

The platform is highly secure and meets the Strong Customer Authentication requirements of the Payment Services Directive Two. (PSD2). The mobile app supports Bio-metric authentication, bringing security without effecting user experience.

#SocialBanking is cost effective, providing an annual billing model based upon active users.

Experience ...

A solution that will evolve with technology and user trends.

We believe dotConnect #SocialBanking needs to be experienced to gain a full appreciation of the platform. With dotConnect, we ask for a future opportunity to demonstrate the dotConnect #SocialBanking platform and investigate how your organisation and customers could benefit from this proposition.

Why dotConnect #Socialbanking ?
