

Turn your smartphone into a **secure wireless microphone**

PowerMic™ Mobile gives clinicians the freedom to complete clinical documentation using a smartphone as a wireless microphone

More freedom, the same PowerMic experience

PowerMic Mobile turns your smartphone into a secure wireless microphone for use with Windows-based desktop clinical speech recognition solutions. Optimised for use with Dragon Medical One, Dragon Medical Network Edition, and other Nuance healthcare solutions, PowerMic Mobile gives clinicians the freedom to roam from workstation to workstation, room to room, and location to location to complete clinical documentation using a smartphone as a wireless microphone at the desktop.

Subscribe

Healthcare organisations subscribe to PowerMic Mobile, and clinicians simply download the iPhone or Android app.

Connect

Users log into any supported PC and their smartphone automatically pairs with the workstation to provide wireless connectivity for audio capture.

Capture

The smartphone's microphone captures the audio and inputs it directly into the desktop Nuance speech recognition solution, functioning just like the PowerMic, including user programmable buttons.

PowerMic Mobile enhances clinician productivity and convenience with support for virtualised EHR deployments, user programmable buttons, and 256-bit encryption with end-to-end security over WiFi or cellular networks. Clinicians can now opt to use PowerMic Mobile as a complimentary input device, or as an alternative, to the PowerMic or other supported handheld or headset microphone.

Features and benefits

Greater clinician mobility

Clinicians can complete their patient notes at any available workstation, with or without a hard-wired microphone, as soon as they meet with each patient.

Scalable and centrally managed

PowerMic Mobile is highly scalable so it can grow with your organisation and offers web-based central management for configuring and managing user accounts and preferences.

Works with virtual desktops

Desktop or thin client, at work or outside the office, PowerMic Mobile offers greater clinician mobility throughout the hospital, clinics, and at home with vendor-agnostic and endpoint-agnostic support for virtualised EHRs.

Automatic workstation pairing

PowerMic Mobile offers several intuitive mechanisms for pairing mobile devices with target applications, including Windows Login ID, Nuance Application Username, or token-based pairing.

User programmable buttons

PowerMic Mobile make dictation easier and faster with programmable on-screen buttons to control audio capture, navigate templates, and effortlessly move through clinical documents for review and editing.

Compatible with iOS and Android

App distribution via the App Store and Google Play Store significantly simplifies end user roll out.

Perfect companion to PowerMics

Support individual clinician preferences and workflows by offering a combination of hard-wired PowerMics and PowerMic Mobile throughout the healthcare organisation.

Optimised for Nuance solutions

Designed to work with any Windows-based desktop solution, PowerMic Mobile has been fully tested and optimised for use with Dragon Medical One, Dragon Medical Network Edition, and other Nuance healthcare solutions.

“PowerMic Mobile has created a lot of enthusiasm around mobility and technology and, therefore, Dragon Medical and physician documentation.”

Dr. Stephanie Lahr

Chief Medical Information Officer
Kootenai Health

Subscription and licensing

PowerMic Mobile requires an enterprise subscription. If your healthcare organisation does not have a subscription to PowerMic Mobile, please have your site administrator contact your Nuance account executive or call **07887 051154**. If your organisation has an active subscription, please contact your site administrator for installation instructions for how to download and activate PowerMic Mobile on your personal wireless device.

System requirements

Hosted Nuance Management Server (NMS) and enterprise license subscription required. Minimum device requirements include iPhone 5 (with iOS 8.0) or Android 4.3 with Internet connection and Windows 7 PC.

Ready to take your documentation to the next level? Contact your Nuance Healthcare representative or call **07887 051154** to get started today.

NOTE: Hosted Nuance Management Server (NMS) and enterprise license subscription required. Minimum device requirements include iPhone 5 (with iOS 8.0) or Android 4.3 with Internet connection and Windows 7 PC.
