

EDI automation without the work.

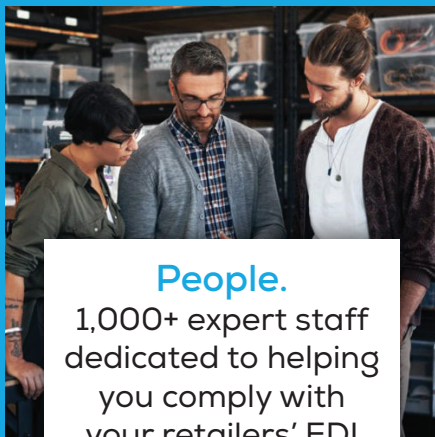

Scale your EDI to meet the needs of your growing business by integrating with your Microsoft Dynamics 365 Business Central system. SPS Fulfillment (EDI) minimizes tedious and costly manual data entry by using intelligence about your trading partners and your business system to automate your data exchange.

SPS COMMERCE

INFINITE RETAIL POWER™

**Get more than just technology.
Get a full-service, always-on EDI department.**

People.

1,000+ expert staff dedicated to helping you comply with your retailers' EDI specifications.

Process.

Proven process used to help suppliers connect to over 2,500 retailers, grocers and distributors.

Technology.

The industry's most trusted and widely used retail cloud EDI solution for over 350,000 trading connections.

Unlike other EDI providers, SPS provides more than EDI technology. Our comprehensive approach gives you the capabilities of an entire EDI department, so you can focus on running your business - not running your EDI system.

EDI built for Microsoft Dynamics 365 Business Central.

Our cloud-based Fulfillment solution built for Microsoft Dynamics 365 Business Central maximizes the capabilities of your system by adding full EDI functionality that enables you to seamlessly communicate with your customers and vendors.

EDI compliance made easy.

Connecting and communicating with your retail customers is more complex and time-consuming than ever. Our expert teams are trained to support and guide you through every step of the EDI journey so you can quickly comply with your customers' requirements. We do all the heavy lifting on your behalf to ensure it all runs smoothly - even if that means picking up the phone to call your trading partners.

Industry leading functionality, seamless integration.

Our fulfillment service for Microsoft Dynamics 365 Business Central is powered by bcEDI, an industry-leading integrated EDI solution built on more than 10 years of partnership. The service amplifies your Microsoft Dynamics 365 Business Central solution, providing access to the latest EDI technology and pre-built maps to all your retail trading partners. Our retail cloud services are continuously improving to match the speed of your business, giving you the ability to quickly add trading partners using pre-built maps and easily scale for the growth of your business.
