MazikAX Manufacturing. Shopfloor Control. ERP.

Let MazikGlobal be your Microsoft Dynamics AX Shopfloor expert. As one of the key developers of AX 2012, no one knows the solution as deeply or is as widely experienced in implementing, consulting and training on the flagship Microsoft ERP solution.

In addition to engineering and supporting ERP, Mazik has developed industry-specific Apps that are Integrated, Accelerated and Secure.

Integrated

Mazik's AX expertise spreads across process, discrete manufacturing, and distribution with specific solutions integrated with AX.

Accelerated

Instantly filter jobs by:

- Production ID
- Job Status
- Item ID
- Item Name
- Date Range
- Pick List Status

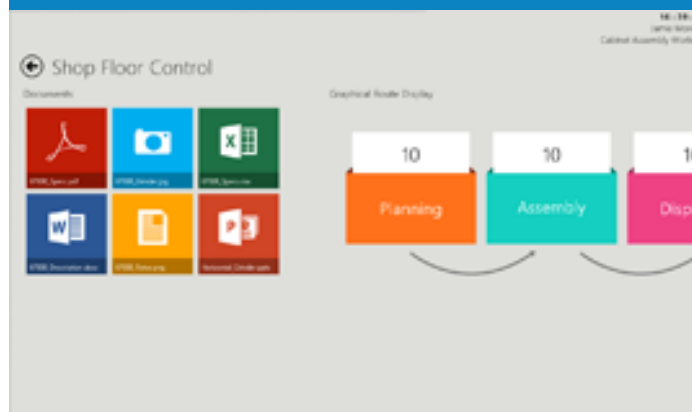

Secure

Executives need secure, real time access to their ERP.

Mazik enables business leaders to inspect, evaluate, and approve business decisions from anywhere, all on your mobile device.

Who We Are

- Founded in 2003 in Park Ridge, IL by 3 Ex-Microsoft employees and quickly grew.
- Worldwide offices and development centers in US, UK, South Africa, Asia Pacific and India.
- Partnered with Microsoft to develop Microsoft Dynamics AX with 150 dedicated MazikGlobal resources.
- Deep expertise in multiple AX product releases, service packs, software assurance, training and maintenance updates.
- Proven ERP Implementation Expertise.

MazikAX Shop Floor Control is an application that fully integrates with Microsoft's Enterprise Resource Planning solution Dynamics AX 2012. It allows operators to keep track of job details, time spent on a job and the resources required to complete the project. In turn this provides executives and their mobile workforce with accurate details and costs associated with projects in real time on any device.

Resources and Actions

Browse through resources and manage actions for active shop floor jobs

- Human Resources
- Machine Resource
- Tools Resources
- Filter Resources by Production unit and Resource group
