ABOUT IPM

IPM is a construction management software solution that is built specifically for Construction Managers, Project Managers, Civil Contractors, Specialty Contractors, General Contractors, and Owners.

It is easy to use and there is no code needed to customise the solution.

BENEFITS OF IPM

- Single Source of All Project Information
- Automate Email Filing
- Seamless Mobility from Field to Office
- Manage Projects within Microsoft Outlook
- Unique Document Sharing via an embedded URL in Emails
- Integrates with a variety of Accounting Systems
- Available on Premise or in the Cloud
- Secure Collaboration Access Point for External Parties

PROJECT MANAGEMENT SOLUTIONS

FROM THE PROJECT MANAGEMENT SOFTWARE EXPERTS

Manage Projects with Ease and Flexibility

Replace manual spreadsheets with real-time project status reports.

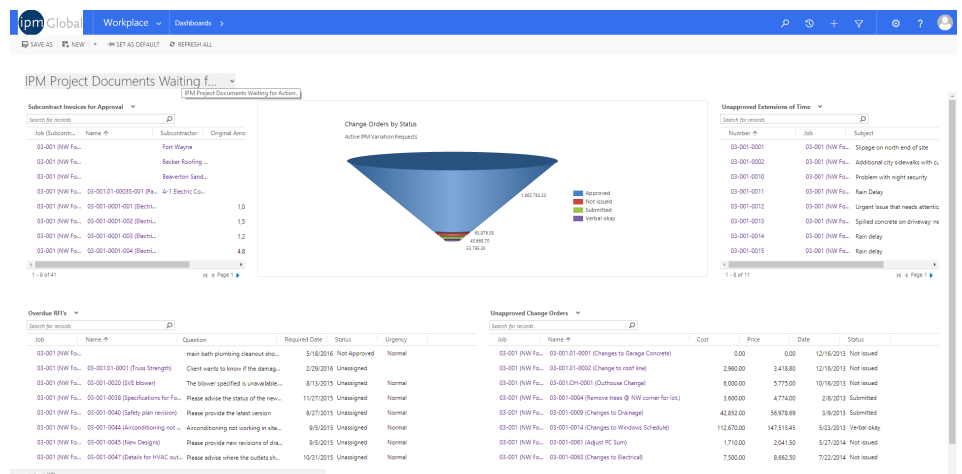

Keep working with your email but let the system manage it for you allowing you to streamline communications and increase accountability.

Replace ftp sites and generic file sharing apps to simplify document access.

Manage IPM through Microsoft Outlook, Browsers and Mobile Devices

IPM helps take control of your projects giving powerful visibility into performance, cost and risk. It helps increase quality by empowering teams with real-time project information, a collaborative workflow, and a bullet-proof audit trail.
