

ULTIMATE AUGMENTED SERVICE & INSPECTION PROCESS

Highest performance and accuracy during indoor and outdoor maintenance, repair & overhaul

xInspect is a solution supporting a variety of service & maintenance processes in multiple industries. Activities in service & maintenance occupy both hands of a service technician. At the same time, digital information and instructions such as maintenance procedures are needed to conduct the task.

With xInspect, all relevant information like guidelines and check lists are always right in the field of view without decreasing the worker's mobility. If errors or processes have to be documented, the technician can use speech-to-text commands, take photos or record videos on-site. In case the technician cannot resolve a problem directly on-site, remote experts can be consulted for advice. With the Frontline Creator, completely new use cases can be compiled easily without IT know-how.

Supported Processes

- Service procedures
- Utility maintenance
- Checklist inspection
- System overhaul
- Infrastructure maintenance
- Training for workers
- See-what-I-see procedures
- ...and many more!

Core Features

Flexibility

Hands-free, with visual step-by-step instructions to ensure process quality

Documentation

On-site and instantaneous with speech-to-text, photos and videos

Integration

Connects easily with your existing IT systems (MES, ERP, etc...)

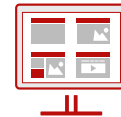

Device agnostic

Compatible with diverse hardware and software infrastructure

Location based alerts

Important information pertaining to location displayed in real-time

DIY AR workflow editor

For fast and cost-efficient creation or modification of AR workflows

Your Benefits

Faster processes

Significant reduction of machine downtimes

Higher quality

Instant quality control and process feedback

Enhanced safety

Visualization of safety warnings and security procedures

Better documentation

Direct & on-site recording of errors and irregularities

Faster response

Access to remote expert help wherever and whenever needed

Quick payback

Return on investment within a few months
