

ContrOCC (Adults)

ContrOCC is an integrated contracts and finance management solution, designed to enable Care Act compliance

The system handles complex calculations for payments, financial assessments and charging, eliminating spreadsheets and increasing efficiency. It offers comprehensive, flexible and reliable support to users.

'Our financial assessment process is slicker. We've saved time on billing and have been able to generate more income.'

Features and benefits

Information management

ContrOCC holds complete information on all council contracts, providers and commissioned care packages, including details of pricing, compliance information and service delivery data.

Payments processing

ContrOCC works seamlessly with your chosen corporate finance system, automatically generating and transferring details as payments become due. It ensures prompt payments to providers and displays alerts when payment discrepancies are encountered.

Powerful reporting

ContrOCC provides comprehensive reporting and analysis capabilities, with a suite of more than 100 built-in reports and the ability to generate bespoke reports. This gives the council complete access to all finance data in the system.

Client charging

ContrOCC provides full support for Care Act-compliant financial assessments, including set up, management and reporting of deferred payment agreements and export of calculated charges to the corporate finance system.
