ADDRESSING THE NEEDS OF MULTI CURRENCIES AND SINGAPORE GST REPORTING.

Singapore Government requires all GST Registered Companies to submit GST on time. The details of GST Output Tax and GST Input Tax are very crucial in every submission.

GST Localization App for Microsoft Dynamics 365 Business Central helps you to reduce the effort and time in submission of GST to IRAS.

" Users can easily generate the GST Details Report and GST Form 5 in just one click. "

Dalstech Singapore GST Localization works for both Dynamics 365 Business Central Essential and Premium Edition.

Please contact us for more details about this App for Dynamics 365 Business Central.
