

Bulk email to customer

App for Microsoft Dynamics 365 Business Central

Send bulk PEC email (“Posta Elettronica Certificata” – Certified Electronic Mail) to customers in Microsoft Dynamics 365 Business Central. The app allows you to select N customers from their lists to create a single email with multiple recipients.

How does it work

The Bulk Email to Customers App allows you to send bulk e-mail to Customers.

For example, to send an e-mail to several customers, we open the Customer List and select the recipients.

Quick guide:

1. open customer
2. select recipients
3. send

Clicking on Actions->PEC Email->Send mail PEC:

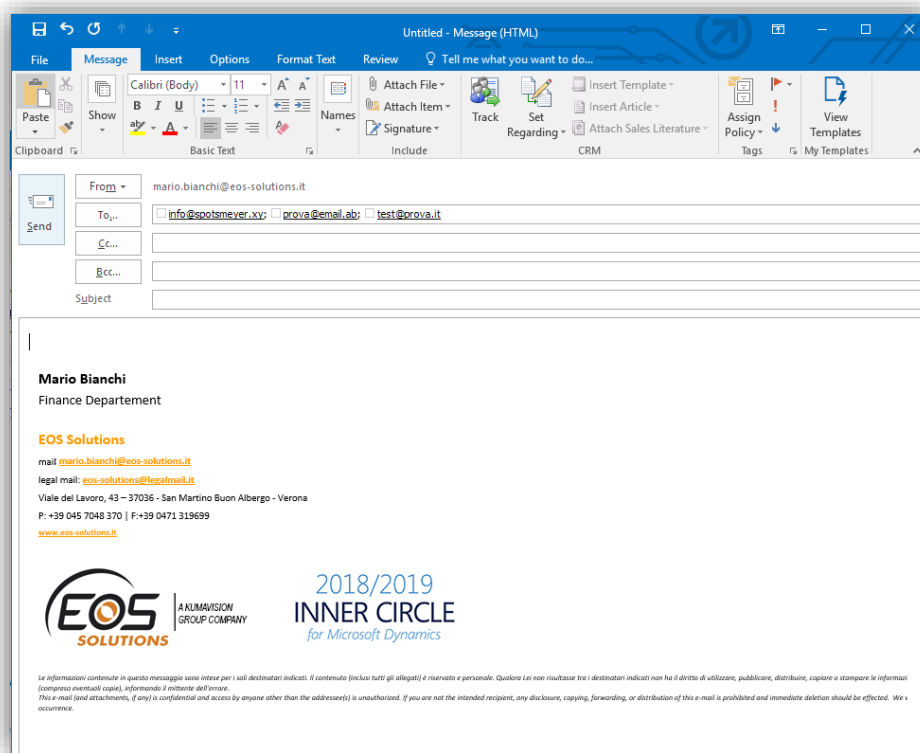

Dynamics 365 Business Central

The System will open an e-mail with the fields Sender and Recipient pre-filled according to the Email field in the Customer card. If the Email field is empty, the system will not add the recipient to the email.

You can then write a text and / or attach documents and then send.

NB

The e-mail will be opened by the system in the default email client in the PC Settings.

We recommend that you enable enable pop-up windows opening in the web browser.
