

Crowe Subcontracting Accelerator

Advanced capabilities for subcontracting in Microsoft Dynamics 365

The Crowe Subcontracting Accelerator streamlines the subcontracting process in Microsoft Dynamics 365

Key features

- Manage purchase and production order information on a single workbench
- Issue material to a production order, post product receipts, and report finished goods
- Review all subcontracting markings, history, transactions, and journals
- Maintain vendors, operations, warehouses, service items, and more with forms tailored for subcontracting
- Streamline subcontracting transfer orders, sales orders, purchase orders, and shipments

Subcontracting Workspace

Summary

- 36 Open subcontracting purchase orders
- 3 Outbound transfer orders not yet shipped
- 1 Outbound transfer orders shipped but not received
- 0 Inbound transfer orders shipped but not received
- 1 Sales orders shipped from subcontractor

Lists

Purchase order	Vendor account	Name	Purchase order status	Service item	Name	Line status
00000702	OP0001	Subcontractor 1	Open order	SVC005	OP Speaker Assembly	Open order
00000701	OP0001	Subcontractor 1	Open order	SVC005	OP Speaker Assembly	Open order
00000678	OP0001	Subcontractor 1	Open order	SVC005	OP Speaker Assembly	Open order
00000677	OP0001	Subcontractor 1	Received	SVC005	OP Speaker Assembly	Received
00000650	OP0001	Subcontractor 1	Open order	SVC005	OP Speaker Assembly	Open order
00000627	OP0001	Subcontractor 1	Open order	SVC005	OP Speaker Assembly	Open order
00000626	OP0001	Subcontractor 1	Open order	SVC005	OP Speaker Assembly	Open order

Key benefits

- Reduce time navigating between multiple forms
- Streamline visibility of vendor-held inventory
- Effectively manage order information tailored to subcontracting
- Holistic view of subcontracting order status and transaction history
