

This is the Backoffice/Middle office which would be used to run the operational business of Graniteshares helping to reduce risks and improve efficiencies across business.

Key areas which Arena CORE will focus on are:-

- Authorised participants / Prime brokers / Market makers Integration to get order flow.
- Swap providers integrations to manage the orders / positions
- Pricing of ETPs
- Generation of settlement reports / automated compliance documents
- Factsheets Generator
- Product Management
- PCF Generations an integration with Stock exchanges.
