

INNOVA ADVANCED CONSULTING – IN Translate

IN Translate

Functionality & Plans

Functionality

IN Translate for Microsoft Dynamics 365 Business Central is the solution that allows Microsoft Dynamics 365 Business Central developers to generate and maintain translation files in an easy-to-use and efficient work environment.

IN Translate is fully integrated within Microsoft Dynamics 365 Business Central Cloud and certified by AppSource, which ensures that it meets the highest standards required by Microsoft.

IN Translate is the ideal solution for translations of your developments in Dynamics 365 Business Central. Manage translations from your system and use any available language. The translations are created from the base translation file generated by each extension. Translations are done manually or through the automatic translation system, quickly generating the translation file.

With IN Translate you will be able to use the automatic translation service that will speed up the process of locating your developments / solutions for any country / language. Not only will it allow you to generate the translated files for all the necessary languages, but it will also allow you to keep the translations up to date.

IN Translate recognizes those new lines of translation of existing files so you can add new translations quickly, also being able to eliminate or modify them.

Plans

You can update your Free Plan of IN Translate for Microsoft Dynamics 365 Business Central with the following plans:

- All of them are **fixed price per month**
- **Number of lines permitted per month** (for both manual and automatic translation lines)
- You can select the plan based on your specific needs, according to the allowed number of lines permitted per month.
- **No additional charges for your plan update/downgrade.**
