

# Dynamic Software Connector

This app makes it possible to integrate with various approval workflow systems, in Dynamics 365 Business Central.

Combined with the WFconnect service from Dynamic Software that connects your Work Flow system, you will be up and running in “no time”.

Read more about WFconnect at <http://www.dynamicsoftware.se/>. There you can find a list of all Work Flow systems supported.

## Supported editions

For this app only Dynamics 365 Business Central Essentials is required.

## Supported countries

This app is at the moment only supported in Sweden.
