Benefits

- 1. Microsoft Assignments fully integrated**
Fully integrate and organize existing or new Microsoft Assignments in your course and lesson plans.
- 2. Save time & work more efficiently**
Save time by working with plans, Microsoft Assignments and assessments all in one tab. Also review and assess both Microsoft Assignments and course plans in the same tab, based on core content and knowledge rubrics.
- 3. Customize your planning**
Plan courses and lessons for all students in your team or for selected group.
- 4. Create your own courses**
Easily create your own courses with customized core content and knowledge rubrics, as well as courses with pre-set core content and knowledge rubrics.

- 5. Engage students & encourage learning**

Create immersive, pedagogical plans with embedded material such as Microsoft Sways, Microsoft Stream, Microsoft Forms, YouTube videos and much more to encourage learning.

- 6. Simplify grading**

Get a summarized overview of all assessments which makes end-of-term grading easier.

- 7. Better communication & collaboration**

Integrate your class note book in course and lesson plans to further facilitate communication with your students. Share plans, assignments and assessments with students in an instant.
