

*The importance of Insurance to any nation's development cannot be overemphasized. Insurance services provide sustainability of economic activities as they provide the required cover needed to recover in the event of any un...*

## What is iBroka?

iBroka provides an Easy to manage Insurance Brokerage Software that is fully integrated and provides all the solutions that an Insurance Broker needs to manage their Business End-to-end

It has been developed as an Easy to setup and manage solution so you do not require IT support to setup and manage your business

A fully integrated solution that allows brokers to manage Insurance brokerage services, business operations, accounting, Talent acquisition and management, Business and Regulatory reporting and a lot more.

All Solutions can be accessed from a single platform based on customer subscription level. The Solution is subscription based

## Features

**Clients Management:** Automatically capture and maintain client policy details to enable effective management and keep the right focus on Sales Activities for every Insurance product in your portfolio

**Leads Management:** Automate lead acquisition and tracking through their entire life-cycle. iBroka allows lead updates as soon as you get them or through bulk uploads. the Application is intuitive to guide you and provide follows for the entire process.

**Policies Management:** Allows you to organize your policy classes and rates. You can auto generate renewal notices and risk notes, while also allowing addition of new products easily with little or no IT knowledge

**Claims Management:** Allows automated claims creation, tracking and management forms as part of the core of the solution. The Claims Management solution helps reduce the cost of processing through automation of all brokerage tasks

**Payment and Invoice Management:** Provides a simple to use integrated platform which keeps track of client payments and invoices. Customers can create invoice, issue them or void them as they require.

**Intuitive Reports:** Intuitive reports which give you all the information you require to make decisions proactively ++More
