## Start here

Decide if this is the right certification for you

Upskill with recommended training and experience

Pass required exam to earn your certification

Continue to grow

### This certification is a good fit if your responsibilities include:

- Planning and creating a suitable working environment for data science workloads on Azure.
- Running data experiments and training predictive models.
- Managing, optimizing, and deploying machine learning models into production.

### Brand new? First, master the basics.

#### New to the cloud or Azure?

Choose Azure Fundamentals training.

#### New to Artificial Intelligence (AI) or AI on Azure?

Choose Azure AI Fundamentals training.
