

LIVETILES REACH **EMPLOYEE APP**

PRODUCT SHEET

LiveTiles
Reach

The future of employee communication is mobile. More than 66% of all media consumption is mobile today – about 80% of it through apps. LiveTiles Reach is the mobile communication app designed to live up to your vision and goals regarding employee engagement, user adoption, enterprise grade connectivity and security. With LiveTiles Reach you engage your employees in an integrated experience by reaching them with company **news**, connecting them with social **posts**, providing structured content and knowledge in **pages**, giving access to skills and colleagues in a **people** directory and fostering learning and in-person contact on **events** and trai-

THE BUSINESS CASE FOR EMPLOYEE ENGAGEMENT

Organizations face an increasing challenge of communicating with their employees in a targeted way. Work in virtual teams in different locations and at different times, linguistic and cultural diversity and increasing mobility require solutions that strengthen engagement, alignment and identification with the company. Condense offers a unified platform that reaches all your employees – whether blue collar workers, sales representatives or desk workers.

Drive Business Outcome

There is a clear correlation between employee engagement and productivity. Engaged employees are healthier, perform better and create more value for the company, saving costs and increasing outcome.

Maximize Employee Retention

In an increasing competition for talents company values and employee happiness become more important. Condense helps you to create a common spirit and culture, reduce recruiting costs and make key people stay.

Only Pay What You Need

Condense is modular – you can switch each module on or off separately and only pay for what you need. Condense is also independent – you don't need an Office 365 license or an IT specialist for implementation.

COMMUNICATE NATURALLY

Make your internal communication more effective, your content more relevant and your social interactions more personal. The comprehensive possibilities of LiveTiles Reach make publishing and targeting of news, sharing of social posts and structured content easy and more impactful and helps your employees to connect and engage.

NEWS – Dedicated Channels & Groups

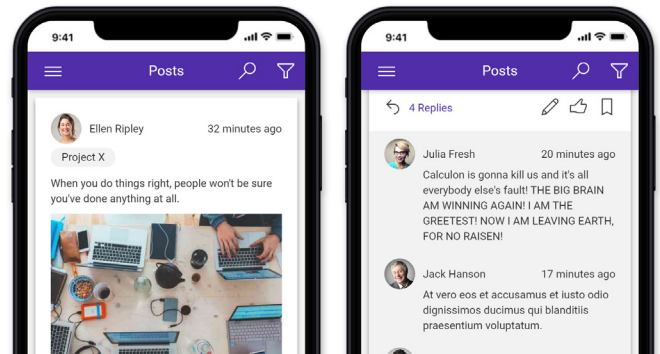

Communicate independent of location, time and device and reach your desk and non-desk workers alike. Include externals such as freelancers, contractors and business partners seamlessly into your communication.

POSTS – Social Sharing & Conversations

Foster bottom-up and peer-to-peer communication and user-generated rich media content. Ask questions to your network and get conversations started with your colleagues.

PAGES – Structured Content & Knowledge

Provide important information, policies, forms or employee handbooks in a structured way and keep everyone up-to-date with push notifications. Make knowledge available to your non-desk workers or freelancers.

PEOPLE – Connected Peers & Experts

Quickly find contact information of all your co-workers and externals, search for skills and find experts quickly.

EVENTS – Staff Activities & Training

Organize and promote your employee events, townhall meetings and trainings. Manage registrations, agenda updates and special attendee requirements and gather instant feedback through integrated polls.

PLATFORM BENEFITS

All LiveTiles Reach features are independent modules and share a common platform to maximize flexibility and stay open for future extensions and updates. LiveTiles Reach is available as native mobile app client (iOS and Android), as MS Teams App and web-client. Add the features you like to build the employee app you need and brand it with your Corporate Design.

Integration

LiveTiles Reach integrates well with Microsoft Office 365 (SharePoint Online, Teams) and other collaboration platforms, HR systems and more than 1000 other apps through its API or Zapier.

Multi-Lingual

Condense comes with a multi-lingual UI and integrated AI translation services based on Azure Cognitive Services to effortlessly translate content in more than 60 languages.

Impact & Insights

Measure reach, relevancy and impact of your content with our advanced analytics capabilities to optimize your content and maximize employee satisfaction.
