

Simplify creation of search driven Catalog solution through dynamically configurable set of web parts

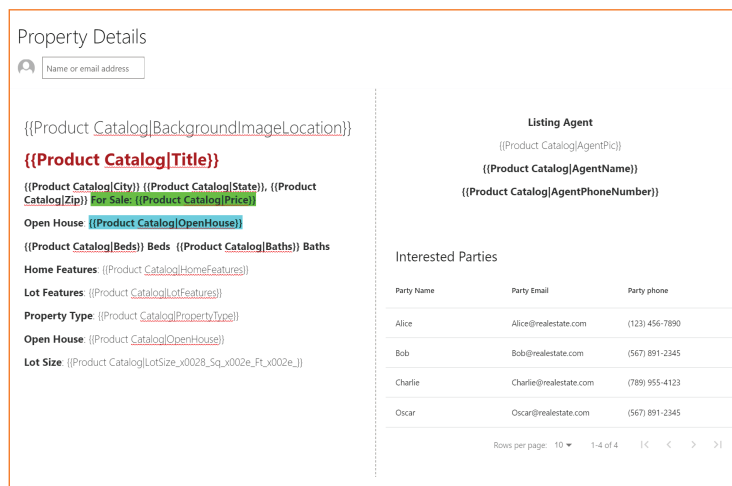

Q-Catalog provides a dynamically configurable set of web parts to provide a Catalog driven Search and Results summary view connected to a related item detail view. Q-Catalog leverages SharePoint List and Library structures for master data and provides a uniquely customized user interface that connects catalog view to relevant item details.

1 Items Listing

2 Item Details

3 Item Dynamic Field Tokens

Q-Catalog is comprised of 3 SharePoint Framework (SPFx) web parts, as listed below:

- Q-Catalog Master: Displays summary catalog information in a tile view with search capability
- Q-Catalog Details: Displays detailed information for an item in a configurable Rich Text Field
- Q-Catalog Details Grid View: Displays detailed information for an item in a configurable grid

Grow your business faster

Q-Catalog is the perfect solution for creating:

- Product Catalog
- Building and Construction Management System
- Real Estate Listings
- Services Catalog
- Automobile
- Travel and Tourism
- E-Learning and Training

And many more...

Benefit from innovative and intuitive attributes

Key Features of Q-Catalog are:

- Leverage existing SharePoint List and Library content to quickly build a catalog
- Enhance graphical data through refined and rich visualization
- Automatic linking of the refined results set and item details
- Compatible with embedded SharePoint Tabs within Microsoft Teams
- Provide infinitely customizable user experiences through dynamic field tokens within an item details template

Highly secure to ensure safety of your business

Q-Catalog is a Microsoft Certified SharePoint App package comprising of SPFx web parts which are pre-installed in each customer's App Catalog and SharePoint CDN (Content Delivery Network). To further ensure security:

- Business data remains within your environment.
- No intellectual property is acquired, transmitted or stored by Quadron
- Data exchange between customer and Quadron is limited to licensing information only

Easy to own

Q-Catalog is offered as an annual license-based subscription for the ease of customers. The convenient subscription plan offers:

- Tenant level licensing which can be used across any Site
- Users based pricing.

Customers are welcome to try
Q-Catalog for **FREE** for first **30** days
