

User Adoption Monitor

**Track User Actions &
Improve Adoption of
Dynamics 365 CRM**

User Adoption Monitor

crm@inogic.com

Available on
Microsoft AppSource

Key Features

Track Actions

Most common actions including Create, Delete, Update, Set State, Form Opens and CRM access is available for tracking.

Configurable

Monitoring can be configured for the choice of entities and actions.

Consolidation

Ability to choose the period by which the tracking should be consolidated. It can be summarized by Daily/ Weekly/ or Monthly basis. This helps with reviewing against goals if any set for the users.

Reporting

Activity stats stored within Dynamics 365/CRM in a format that is easy to report on using either the OOB Charts or SSRS/ Power BI Reports.

Leaderboards

Easily view the activity breakup and individual user performance across the CRM application through Dashboard visualizations to list out key metrics.

Performance

Statistics collected in the background without impacting performance or user experience.

Log-in/Log-out & Check-in/Check-out

Track daily Log-in & Log-out details of each user in Dynamics 365 CRM. Also, keep track of time spent by each user on particular Entity records with Check-in & Check-out feature.

Available For

SUPPORTED VERSIONS

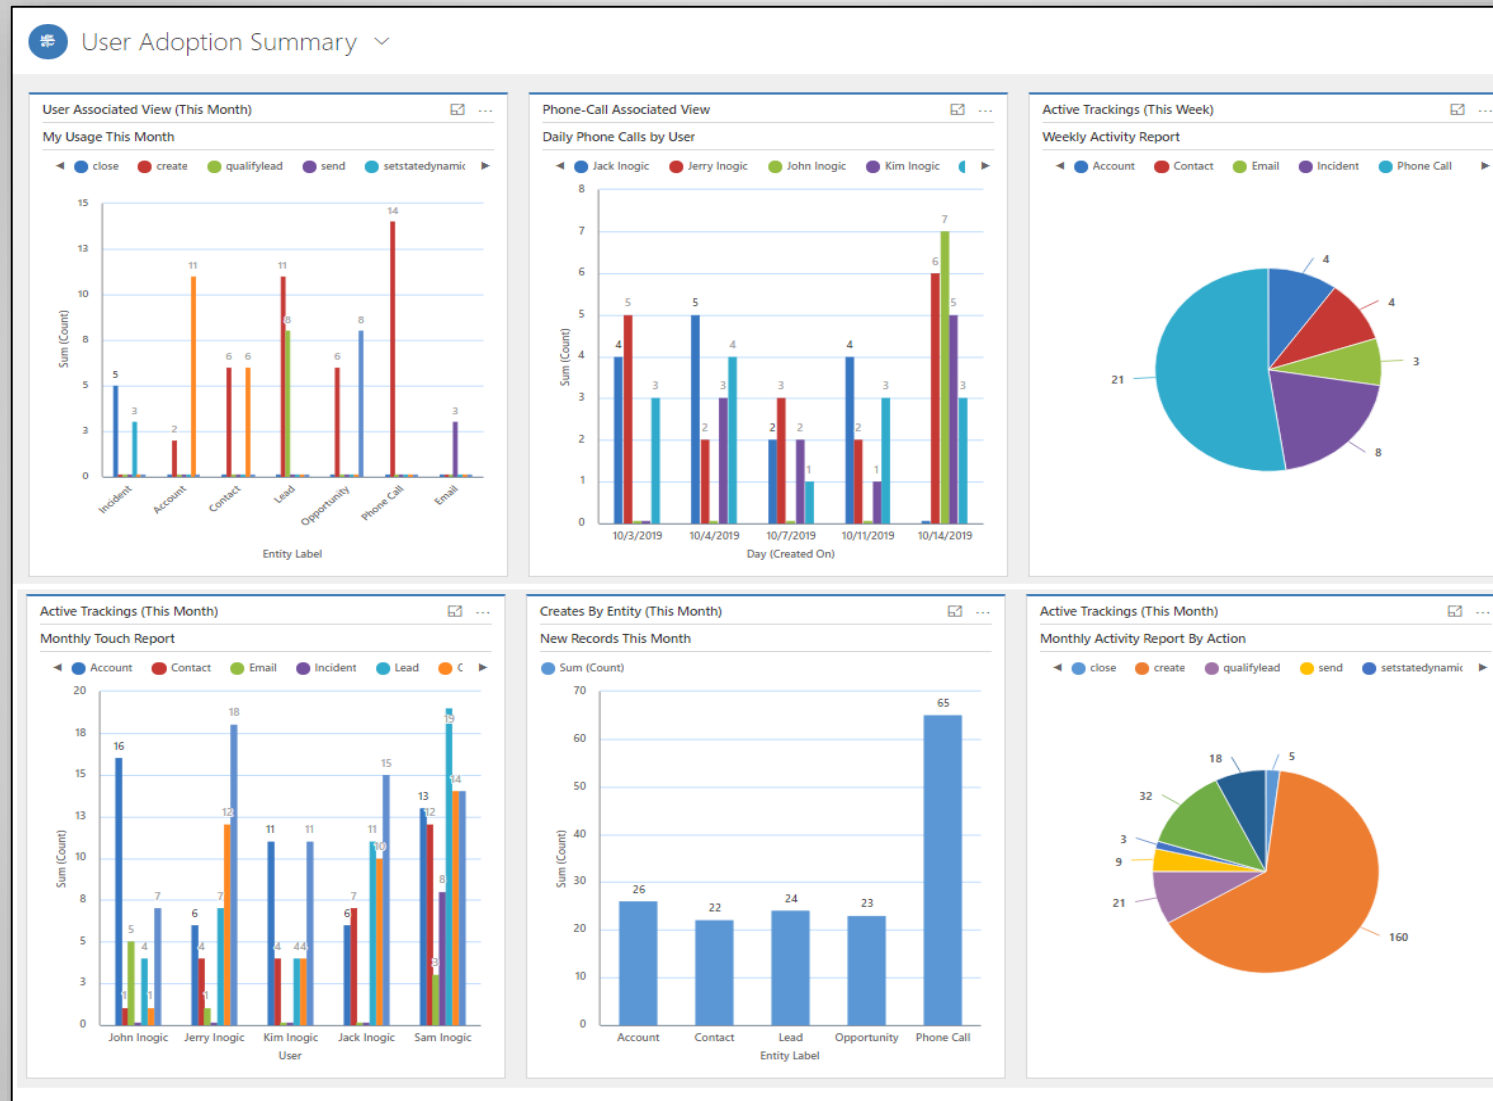

- Dynamics 365 8.2 and above
