

**OPENFIELD**

# **DATA SCIENCE PLATFORM FOR SMART BUILDINGS**

---

December 2019

# OUR PLATFORM LEVERAGES YOUR BUILDING DATA TO PROVIDE NEW SERVICES

## 5 key use cases addressed :

Space occupancy  
and usage of your  
assets

Security and flow  
management

Operations  
optimization

Comfort and well  
being

Energy  
performance

# WE CORRELATE VARIOUS DATA SOURCES AND PROCESS ADVANCED ALGORITHMS TO MAKE YOUR BUILDING BECOME SMART

## Sample use cases :

**Restaurant / Cafeteria or Parking presence Prediction**

**Comfort Indexes processing**

**Space occupancy analytics, automatic room release and room insights**

**Space Design & Furnitures, Relocation analytics / Spot finder**

Zone	Surface (m²)	Nombre de bureaux	Nombre de bureaux occupés	Taux d'occupation (%)
Zone A	100	10	8	80%
Zone B	150	15	12	80%
Zone C	200	20	15	75%
Zone D	250	25	18	72%
Zone E	300	30	22	73%
Zone F	350	35	25	71%
Zone G	400	40	28	70%
Zone H	450	45	30	67%
Zone I	500	50	32	64%
Zone J	550	55	35	64%

**Data-sharing between promoter / lessor / lessees**

## Sample processing :

**Multi-source, temporal and spatial Analytics**

**Data cleaning and Data enrichment processing**

**BIM management and Open data integration**

**Advanced anonymization processing**

**Spatiotemporal clustering**

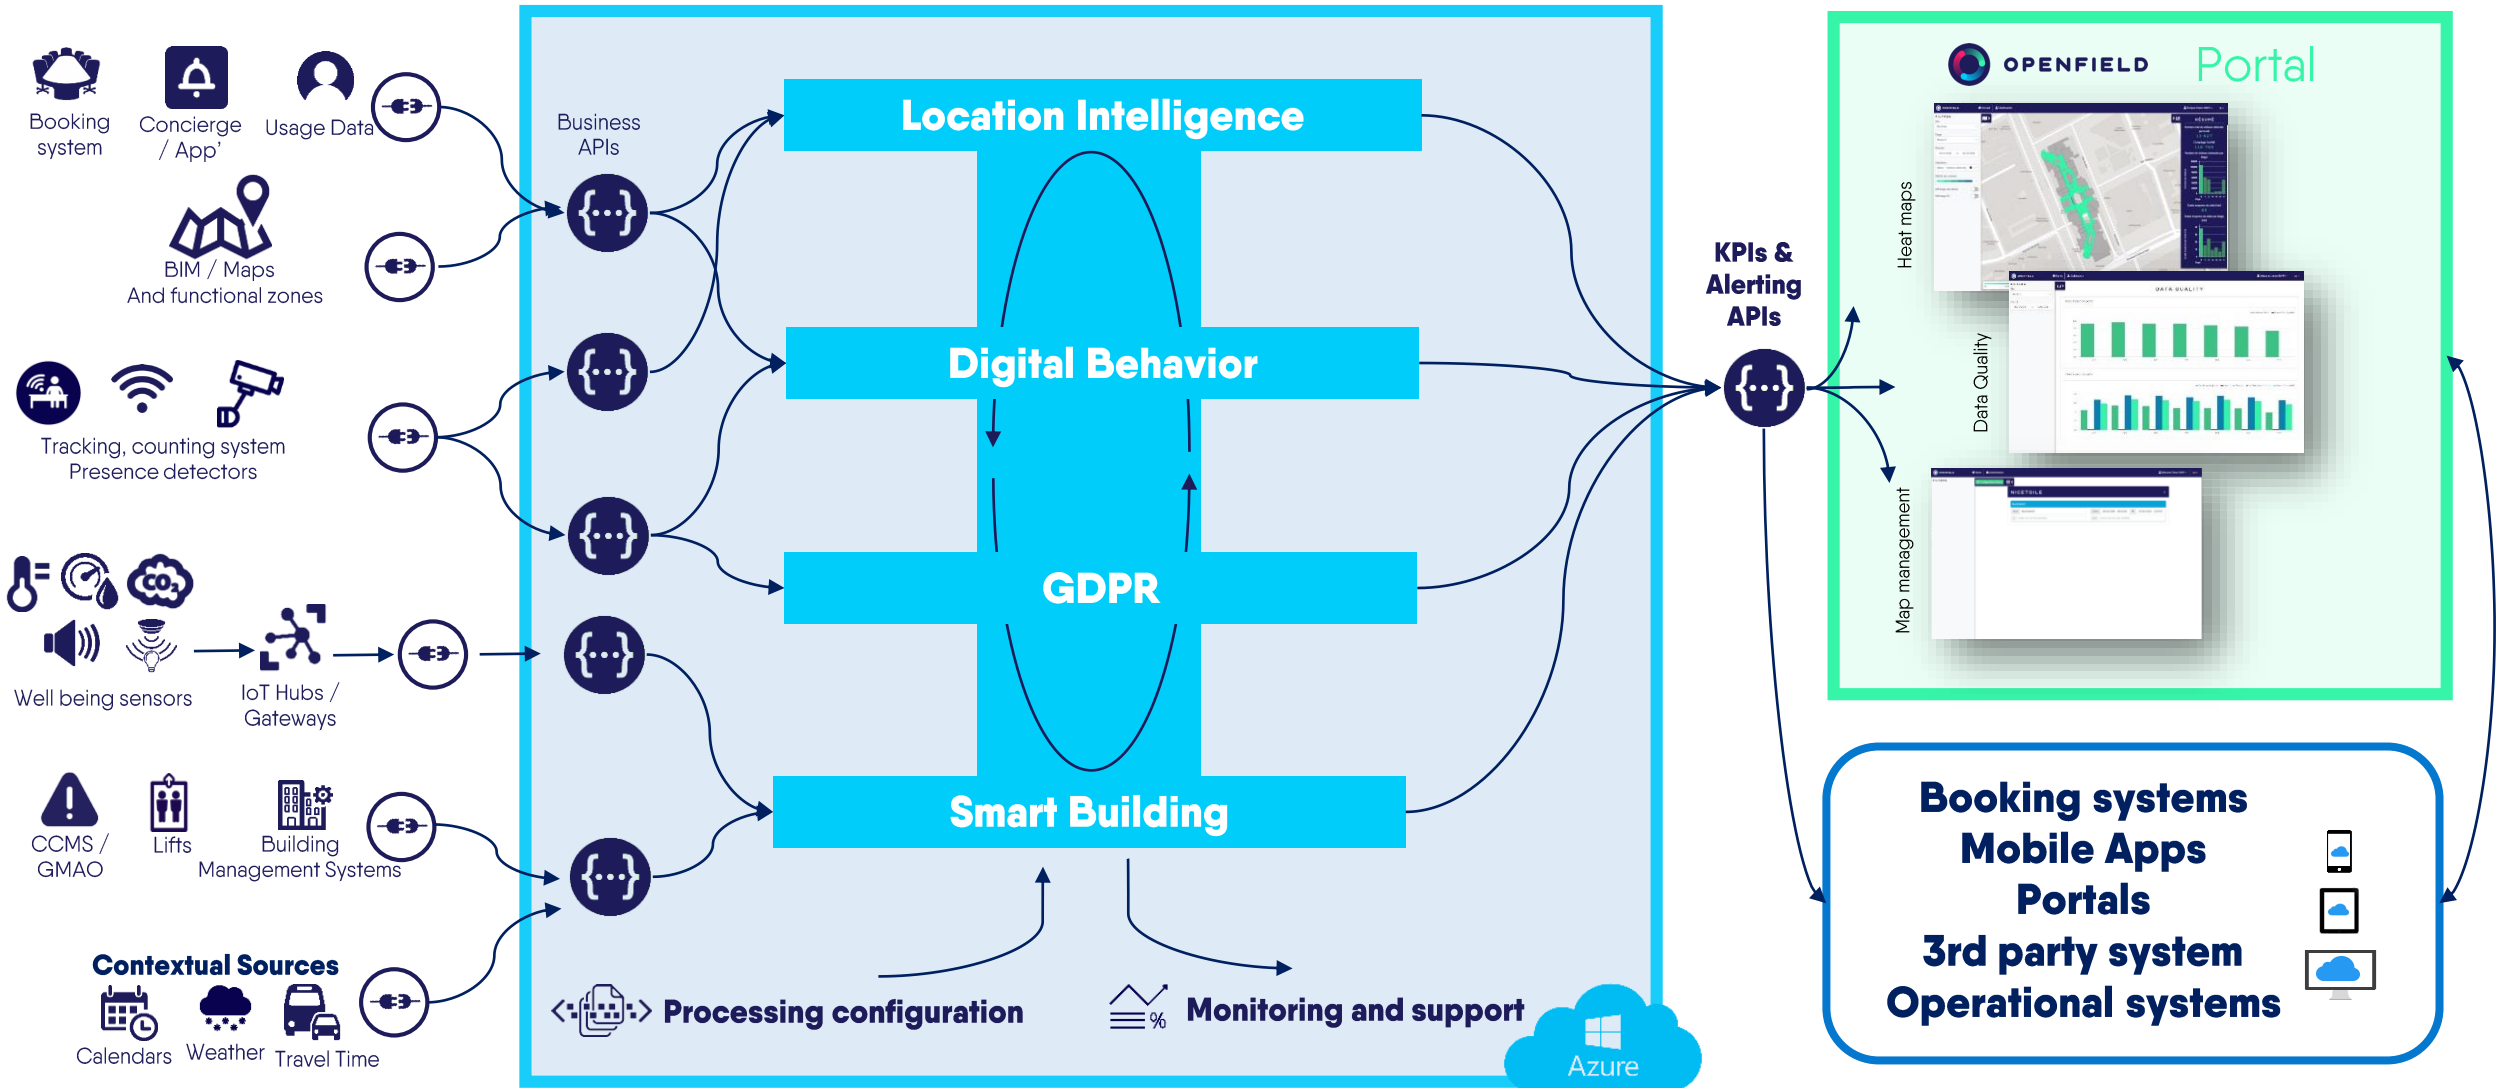

# LOGICAL DATAFLOW : WE INTEGRATE IN YOUR EXISTING ECOSYSTEM

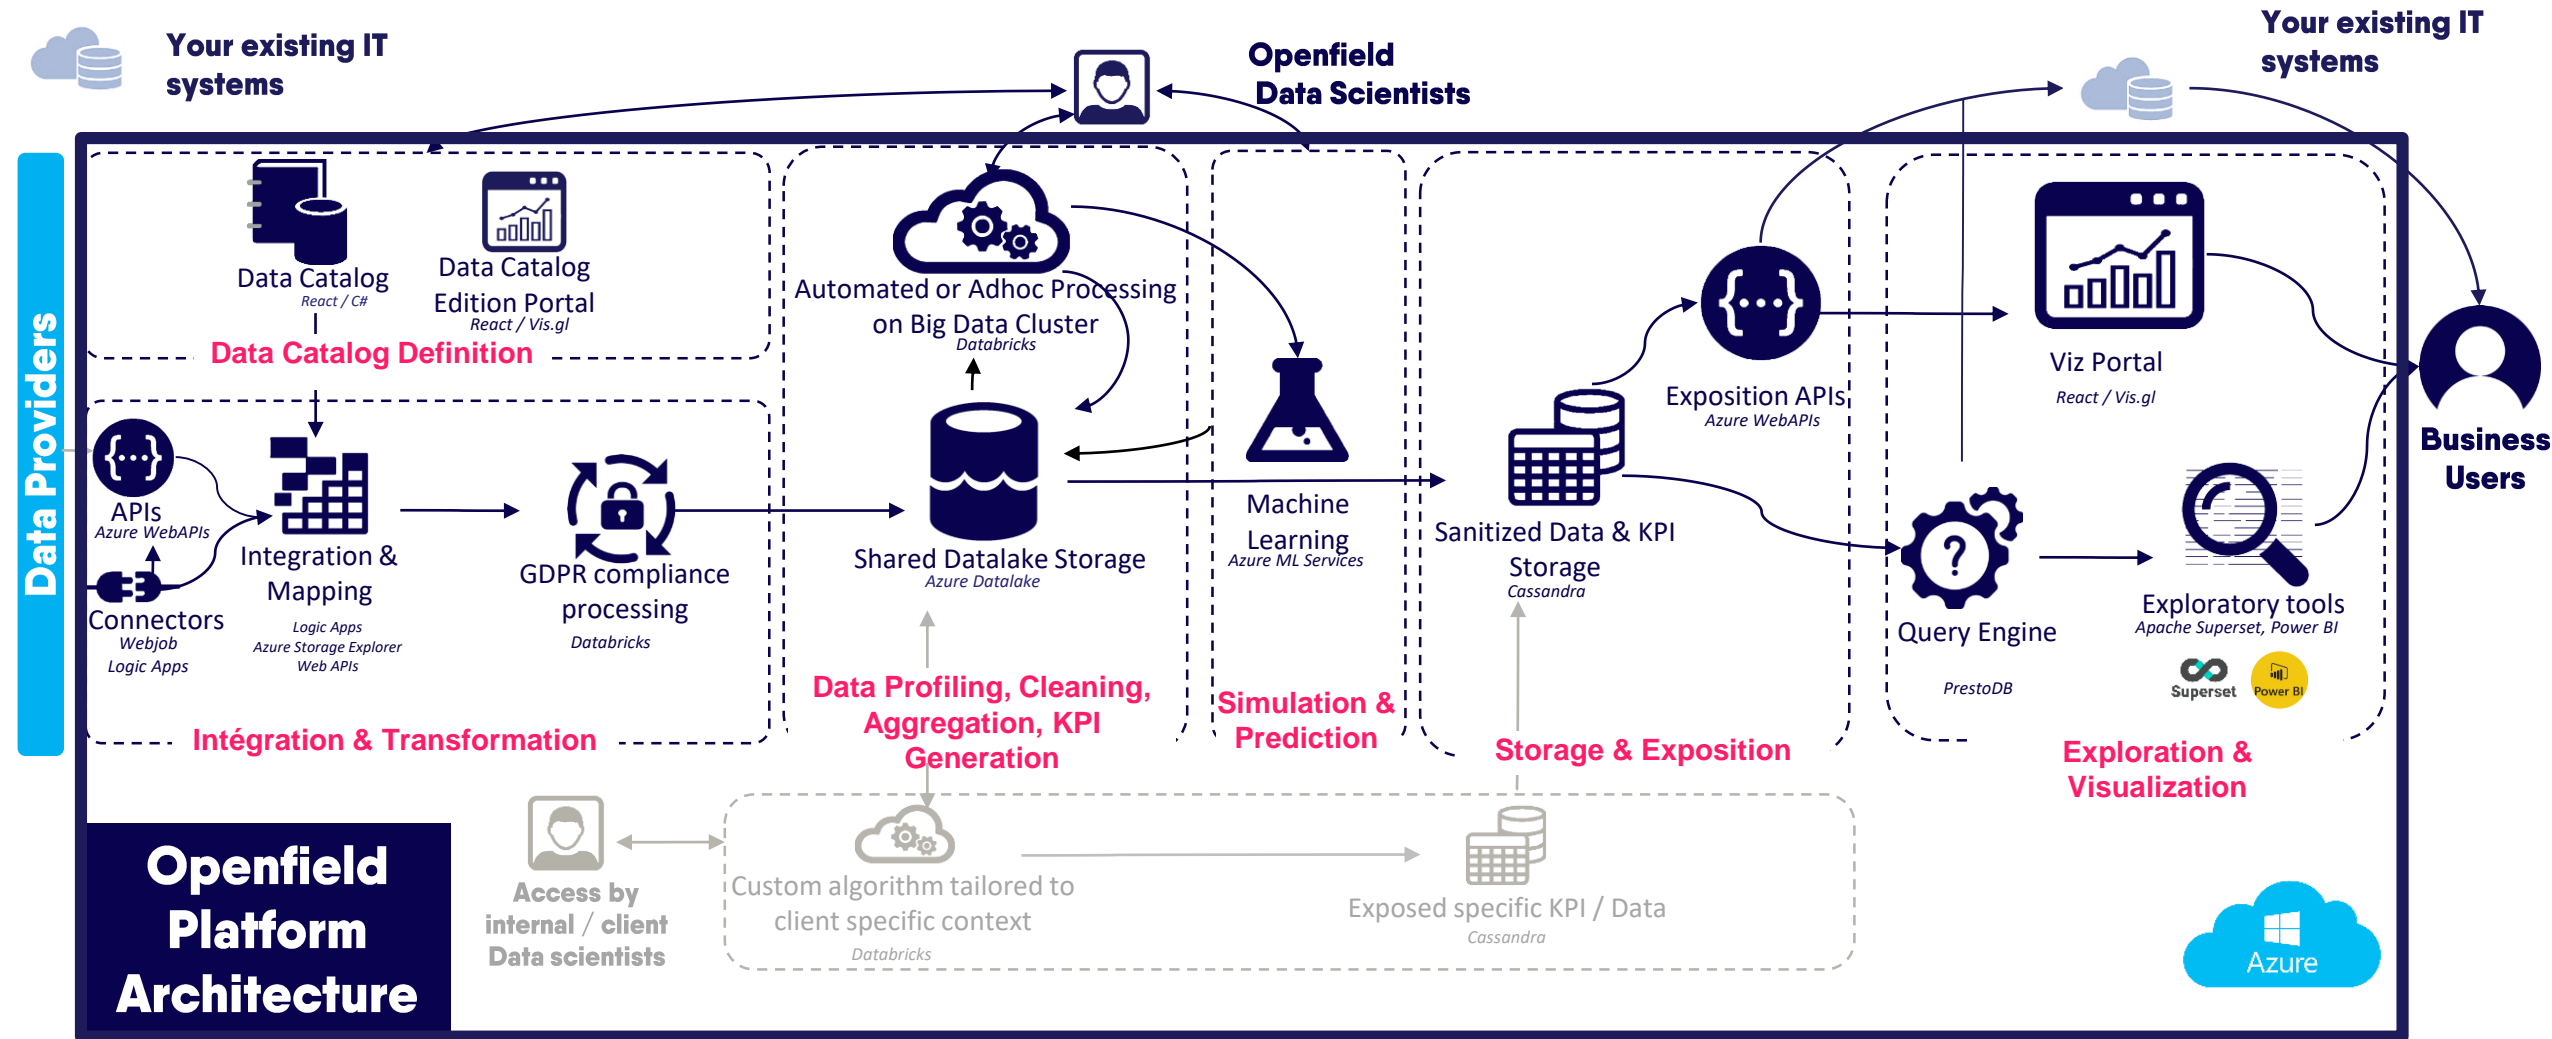

## Data source example

## OPENFIELD Processing

## Exposition and Visualization

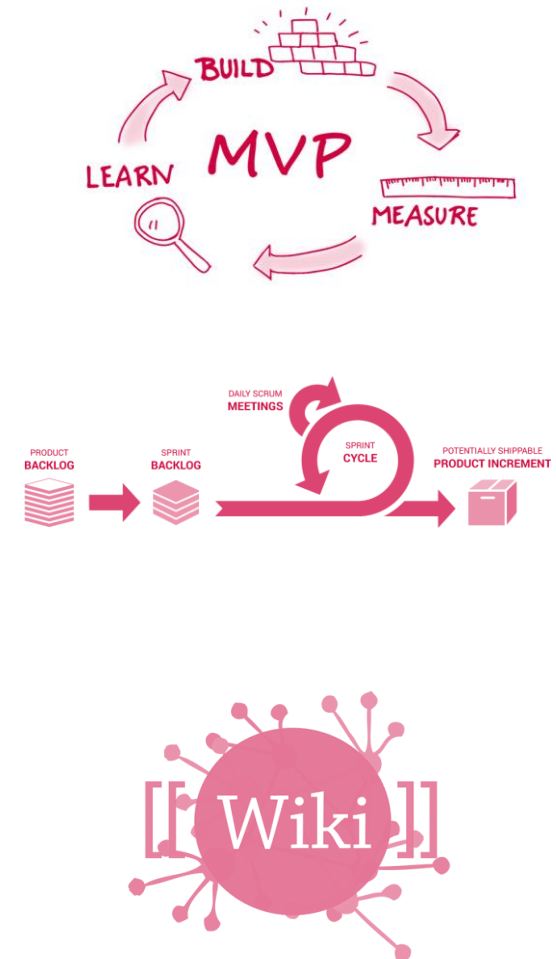

# WE PROVIDE A ROBUST, FLEXIBLE AND OPEN ARCHITECTURE, TAILORED FOR: DATA SCIENCE STUDIES AND INDUSTRIALIZED PROCESSING

# AN AGILE AND COLLABORATIVE ORGANIZATION & METHODOLOGY

We usually leverage the following methodology when working on studies or deploying our platform. It helps us quickly adapt to your daily business priorities and strategic objectives :

- **A « Lean Startup » approach :** Our objective is to demonstrate the value that can be generated based on your data, build your journey based on this first step. We identify with your team and business experts this Minimum Viable Product that will fit your top priorities and that will feed you Business Strategy.
- **An Agile Methodology :** Our team of experts and engineers usually work following 15-days sprints, composed of a sprint planning that will help defining the key features to address, daily meetings, and bi-monthly demonstration to show your team the advances
- **All the work (studies, explorations, algorithmic configuration,..) is documented on a Shared Wiki dedicated to your project,** allowing an easy and instant access to the information in real time by every party
- **Your partners / solution providers will take part in your project,** as their specific expertise might be needed to integrate their Data source within our platform

# OUR DATAVIZ PORTAL : YOUR SMART BUILDING « CONTROL TOWER »

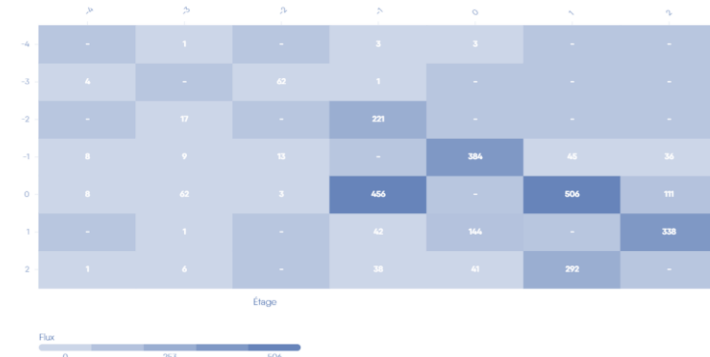

Our portal is tailored to provide Location Analytics / IoT based Data Visualization

Our portal, with visualization by site / levels of occupancy or presence data

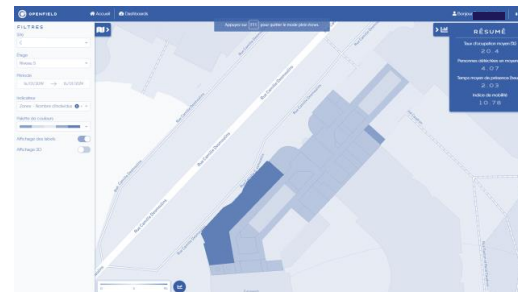

Sequence generation

Level transition matrix

Seat occupancy analytics

Group analytics

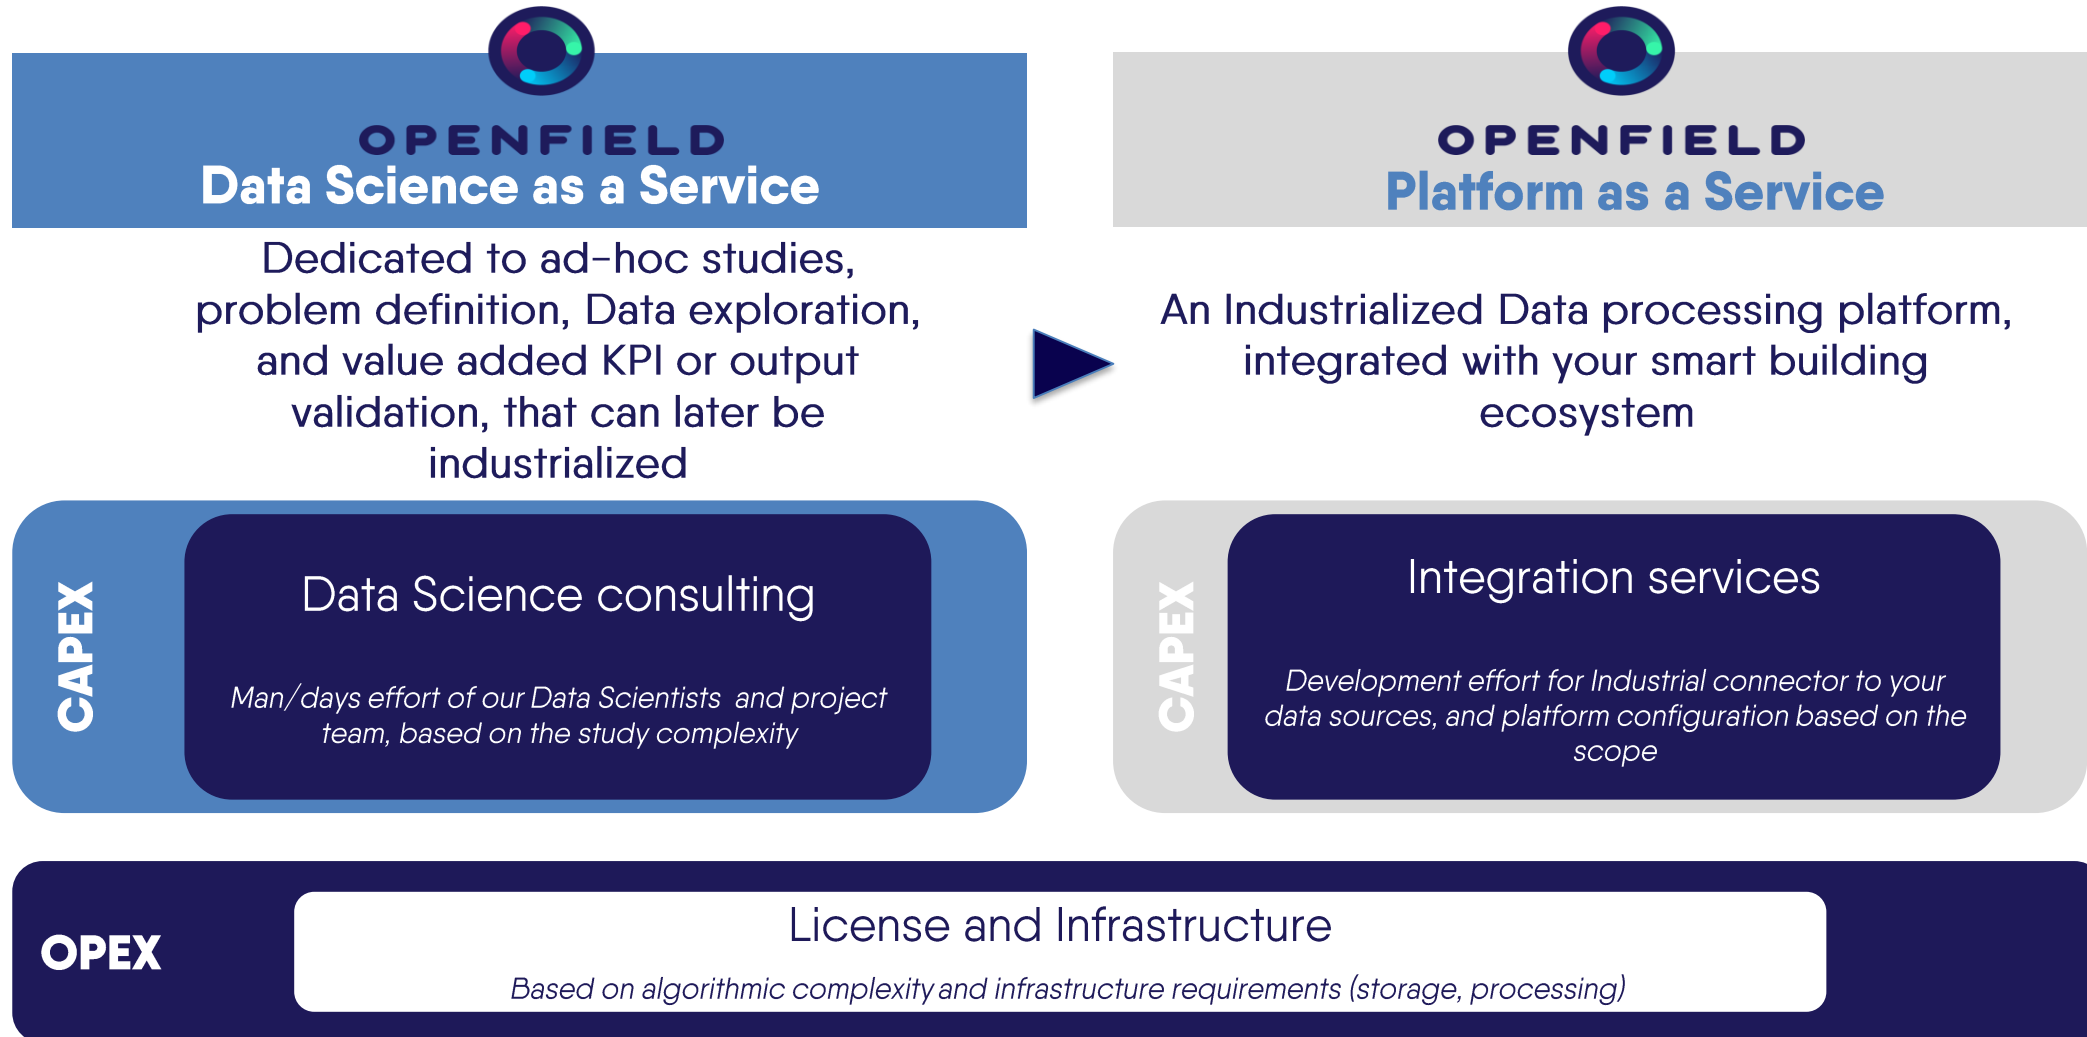

Temporal analysis of open spaces and room booking systems

Clustering

## 2 TYPES OF OFFERING :

# WHY OPENFIELD ?

Our unique platform enables **easy aggregation and value generation** on top of multiple data sources: on site infrastructure Data (Maps, WiFi, Sensors, Access Control,...), Business Data (HR Departments and performance, financial metrics,...) together with Open and contextual Data (weather forecasts, calendars, travel time,...)

The platform offers both :

- Ad hoc **Data Science tools & accelerating solutions** for early stage and exploratory studies
- Automated processes for **industrial setups**

It is **RGPD compliant** by design and provides our clients with state-of-the-art anonymization process when required.

It is built with the full support of **Microsoft Corp.** teams and runs on Azure's scalable infrastructures and services.

Our **Data Scientists and Subject Matter Experts** may run & interpret complex correlation & forecasting models, including location and business data in several industries.
