### Supercharging Dynamics 365 and PowerApps with Task Management

# Overview

Advvy is an Australian software company focussed on helping organisations create solutions that drive efficiencies, decrease costs, and increase competitiveness.

Started by founders from the media industry, Advvy was born to solve everyday challenges managing agency workflow.

From this was born the Advvy Workflow Engine and Task Management capabilities that we are now sharing with the boarder Microsoft Partner and Customer community.

Advvy Workflow enables any Dynamics 365 or PowerApps entity to have a selection of business processes deployed, and for task management capabilities to be performed against the entity.

# Our Capabilities

**Advvy Solutions:**

- ✓ Media Agency Workflow
- ✓ Workflow for PowerApps and D365

For more information contact us today or visit Advvy.com
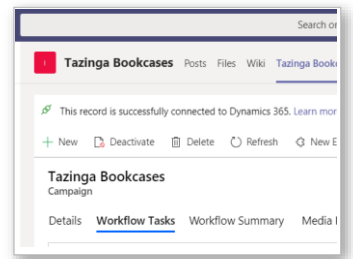

## PROCESS GOVERNANCE

Predefined task fields, templates, and consistent processes ensure that all key requirements are met for project completion

## COLLABORATION

Integrations into your Microsoft suite and dozens of other platforms.

Excel  Outlook  Teams  SharePoint  PowerBI

## RESOURCE MANAGEMENT

Assign tasks to teams, groups, roles, and individuals. Kanban boards, dashboards, and filters are used to manage their assignments
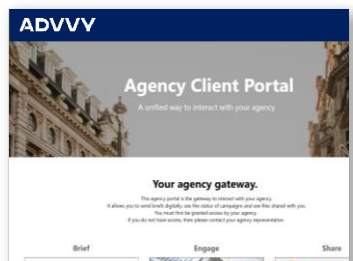

## CLIENT PORTAL

Share documents, briefs, and reports securely with your clients via the Client Portal which can be branded to look and feel like your agency.
