

Getting Started – Zap Email Reader App

Step 1: Install Zap Email Reader solution file in your Dynamics 365 CRM environment (from AppSource).

Step 2: Register license profile online to request trial (Browse to Settings >> Zap Apps >> Zap_ER_License, enter details and click register). Refer [licensing KB article](#) for more info. (refresh the page if licensing link does not show up in sitemap).

This will start the 15-day trial automatically.

Below are some useful resources that you can refer during trial:
