

# LoanStream 365

*Improve transparency and efficiency of your lending process*

## Why You Need LoanStream 365

*Built on industry leading business application Microsoft Dynamics 365 Finance and Operations, LoanStream 365 helps organizations efficiently manage internal and external lending processes – from loan application all the way up to complete loan repayment. Leveraging the powerful capabilities of the Microsoft Intelligent Cloud and Dynamics 365, LoanStream 365 breaks down data silos created by traditional solutions.*

### Easy-to-follow Processes

Take advantage of user-friendly interface, empowering your team to easily capture client's details – from initial loan application up until loan payoff.

### Lender and Borrower Management

Manage the process of lending and borrowing funds from within the company and any 3<sup>rd</sup> party.

### Employee & Contractors Garnishment

Manage garnishment compliance for your employees and contractors and support on time payments to reduce risks.

### Powerful Business Analytics

Easily customizable reports to meet your company's requirements as well as reports needed for your country's Central Bank requirements.
