

J&T Construct and Microsoft Dynamics 365 Business Central:

Are empowering businesses with a cost-effective Cloud accounting and operations management solution designed for the Engineering & Construction industry.

J&T Construct[®] is a complete construction solution that enhances and completes the Microsoft Dynamics 365 Business Central Suite to meet the unique requirements of the construction industry. J&T has developed a set of enhancements that are tailored for the Engineering & Construction Industry.

FINALLY, there is a turn-key solution that is easy to implement, is cost effective and requires minimal customization and implementation to fit your needs.

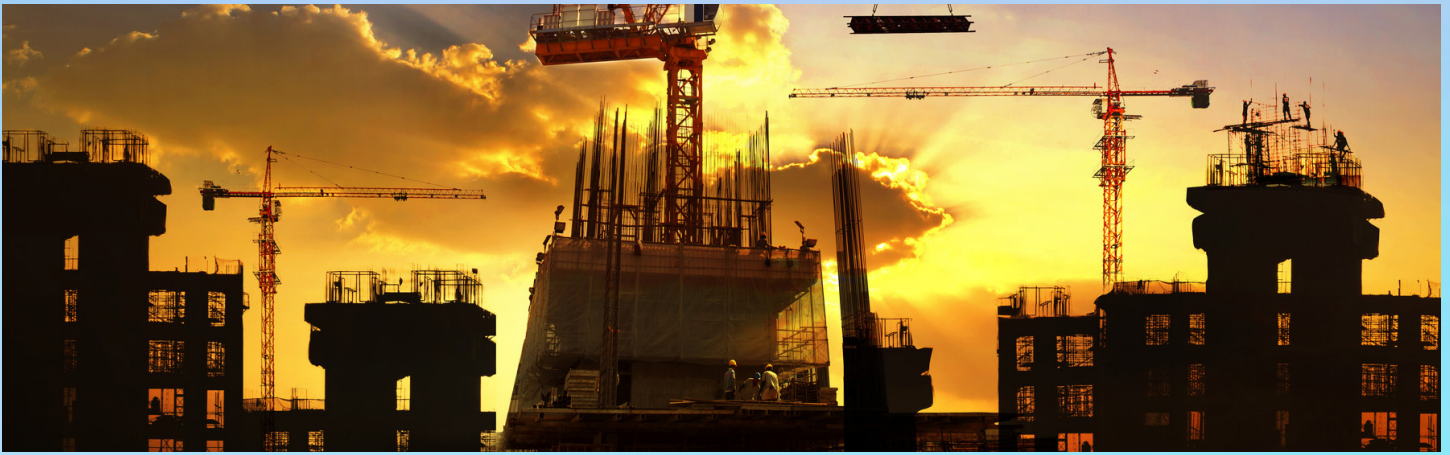

At a glance added functionality:

- Billing Retention
- Change Order Management
- Committed Cost Tracking
- RFI's
- Subcontractor Management
- AIA Billing
- Procore Integration

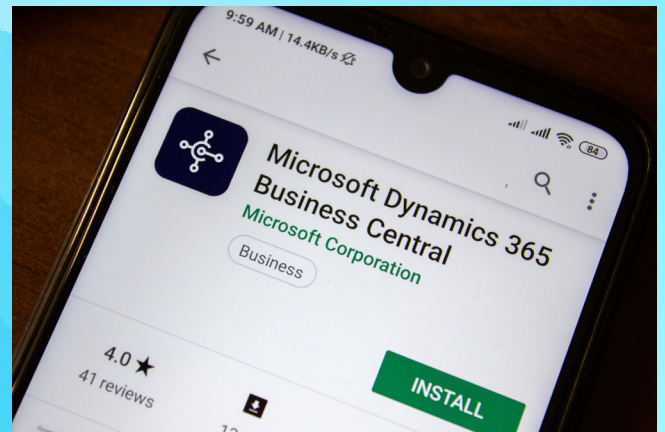

Changes during construction projects are virtually guaranteed and can be costly if not properly managed. J&T Construct[®] helps you stay on top of these change orders and provide complete visibility of job cost, performance and issues. We have added the ability to create and manage change orders on your construction projects. Additionally we've added Committed Cost tracking on Projects to help you manage progression through the job and identify any issues early. AIA Billing and Retention (Retainage) is included and produced from the schedule of values setup at the contract level. J&T Construct adds Subcontractor management as well as response and tracking of RFI's (Request For Information).

Procore Integration - If you are already using Procore and either need or want to continue using Procore, you can. We have added synchronization with Procore for some or all of your projects, you choose the options to fit your needs and budget.

Additional added features our enhancements offers:

- Retention for both AR and AP
- Change Order Management for Business Central Created Projects
- Committed Cost tracking on Jobs/Projects
- Contracts
- RFI entry
- Vendors can be specified as Subcontractors
- AIA Billing
- Procore Integration
