Intech eCommerce Portal

Boost your business by selling online

Enhance your global presence with Intech eCommerce Portal as it offers a scalable B2B and B2C eCommerce platform that lets you roll out a web store in just 7 days.

Features in brief

Intech eCommerce portal gives a rich shopping experience to your customers and a new online digital platform for you. With the unified checkout experience you can also leverage the other facilities such as social sharing tools, live chat, regular discount updates via SMS and many more.

The integration with major payment gateways like PayPal, Auhorize.Net, CC Avenue, and Venmo gives you various payment options. And it's not just buyers who benefit. Integrating with ERP provides seamless order processing. Thus, you can make the most of your ERP investment by leveraging its real-time data in your web store: turning any ERP into a powerful e-commerce engine.

Features

- **Multi Store/Company:** Manage multiple stores or businesses on a single eCommerce portal

- **Seamless Checkout:** Operates with major payment gateways and real time integration with Dynamics ERP to pick, pack and ship

- **Unified Tax Structure:** One tax structure reflected in ERP and ecommerce portal

- **Flexible Pricing:** Choose which product price you need to showcase on your webstore based on profile of customers, quantity ordered, etc

- **SMS Integration:** Messaging gateway integration available to inform customers about all the orders, current offers and discounts

eCommerce Portal

Sales and marketing, both from a single portal

Our eCommerce portal provides the quality support that your business needs such as manage real-time inventory, order and billing, shipping and fulfilment, carts and wish lists – all from a single portal. You have the flexibility of creating different campaigns, customized pricing, and keep customer details updated so that you can provide them personalized experience.

The portal nurtures greater customer loyalty and satisfaction with business process automation that delivers consistently outstanding customer service. Customers can access information about their accounts, invoice, shipments, out-standing amount, order history, wish lists, etc.

Besides, if you have already chosen a scalable, flexible and intelligent solution such as Dynamics 365 Business Central, our ecommerce portal has tighter integration with this solution through the help of E-commerce Connector.
Benefits

- **Streamlined Data –** When connected with Business Central, order details created in ecommerce portal directly fetched in BC manually as well as automatically. Set the batch run in interval to integrate ecommerce data to the BC as well as easy integration with guest customers detail

- **Reduced Cost of Ownership** - With a seamless, cloud-based integration, Dynamics 365-enabled businesses can reduce resource requirements and avoid costly infrastructure investments

- **Increased Productivity** - Automating sales order booking process leads to less error and reduced human involvement. By integrating with Dynamics 365 you can track sales orders and product availability in real-time. Additionally, sales returns, customer refunds along with credit memo, or replacement everything is tracked in one single system

- **Customer Centric** – Intech eCommerce portal connector gives your customers 24/7 real time self-service. It also has customer specific product, terms and prices

- **Real-time update** - Moreover, based on Posting actions on Sales Order in Dynamics 365, it is updated in E-Commerce Order. For example: Customer can know order status from E-Commerce portal can also download the invoice once updated

Pricing Model: One-time setup fee (fixed budget implementation)

Implementation Time: In one week
