

MazikCare Back to Work Solution

Ensure your team returns to the workplace safely and confidently

As employees re-enter the workplace, the top business concern remains: staff and public health safety. Mazik Global's Back-to-Work solution offers security-compliant tracking that gives employers real-time visibility into who is healthy enough to rejoin and remain in the workplace. **Make staffing or business decisions faster, keep staff safe, and ensure business keeps running smoothly** with this quick-deploy Microsoft PowerApps solution. Available as a mobile app or as an integration with Microsoft Teams.

Features

Mobile App

Easy-to-use app

Employees track symptoms, report COVID-19 exposure, or express concerns in one spot

Workflow automation

Get alerted if an employee is showing symptoms or is newly cleared for work return

Simple data dashboards

Easy-to-read dashboards aggregate employee health data for real-time insights

Reminders and alerts

Push notifications remind employees to log responses; broadcast updates or notices teamwide at once

Employee Case Management

Easily monitor employee risk and wellness status

Secure platform

Built on the HIPAA-compliant Microsoft Azure platform

Benefits

Mitigate the spread to staff and customers

At-risk employees know to self-isolate sooner

Act on work disruptions sooner
