

## Teams for Education

### Education continuity, collaborative learning

Maintain education continuity, enable digital collaboration and support human interactions using Teams for Education.

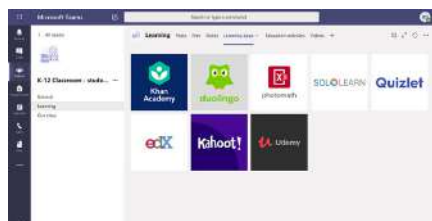

#### Speed-up delivery and maximize adoption

Microsoft Teams is quickly becoming the go-to solution for remote and hybrid learning with time-to-delivery being a crucial factor to avoid disruptions. At BindTuning, we work in partnership with Microsoft to deliver at-scale deployable solutions, enabling full digital collaboration and maximizing adoption for everyone in the school ecosystem.
