

SmartBar

effective navigation and record count in Microsoft Dynamics 365

Your benefits at a glance

- **Smart navigation** between related Dynamics 365 records
- **Configurable views:** Display critical information like „Open Cases“ or „Opportunities over 10K“
- Numbers next to the button **indicate the number of related records** per entity (e.g. the number of quotes, orders, etc. related to the opened record is counted)
- **Color-coding:** Hide buttons or change button color based on defined count ranges
- **Drag & drop functionality** enables users to change buttons order
- Display SmartBar in **Standard or Metro Style, a vertical/horizontal order and various colors**
- **Create custom buttons** (JavaScript Function, Links, Views, Entity/SiteMap, Scroll to section)
- Fully **customizable look & feel:** Embedded into any entity or dashboard (personal menus)
- **Show/Hide buttons** based on count or field values

Customizable color & size give a clear overview on related records.
