ActivityTools
simmple e-mail and activity handling in Microsoft Dynamics 365

mscrm-addons.com
Your company for MS-CRM ADD-ONS!

Get an Outlook look & feel experience when dealing with activities in Dynamics 365
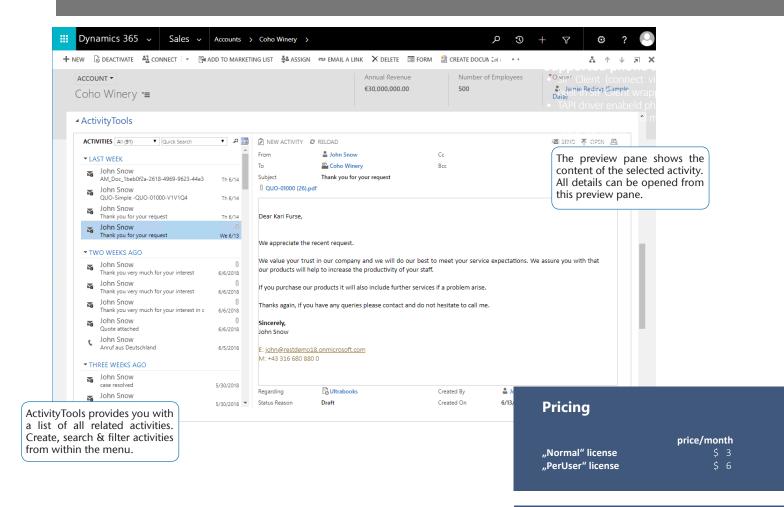

Activities ar crucial in every Dynamics 365 implementation. Our powerful solution provides you with a 365° view of the activities in an Outlook-like user experience.

The practical list and preview pane allows you to browse through the activity list while getting an instant preview of the selected activity. Similar to common email-clients, the add-on loads records "on-demand" in reversed chronological order and comes with various filter and search options to effectively search activities inside Dynamics 365.

Your benefits at a glance

360° view on all activities related to a record

- **List view:** Shows activities in reverse chronological order
- **Advanced search and filter capabilieties** (content, status, type, date-range)
- **Preview pane:** Direct preview of activities and attachements
- **Load „on-demand"** to ensure high performance
- **Fully customizable layout and preview pane**
- Can be **embedded into any entity form or dashboards**
- Support for user-views (inbox) and queue-views

The preview pane shows the content of the selected activity. All details can be opened from this preview pane.

ActivityTools provides you with a list of all related activities. Create, search & filter activities from within the menu.
