

## Electronic Data Interchange, EDI Platform HubBroker ApS

Electronic Data Interchange  
platform converts all files &  
data used for web, storage &  
accounting

HubBroker's fast & convenient EDI integration  
allows you to export Invoices & Credit Notes  
directly from your **Dynamics 365 Business  
Central** to customers in the desired format  
through HubBroker's **iPaaS**.

## Automatic, Secure Data Transformation

### Improved Data Accuracy

Convert Invoices in preapproved  
data formats, guaranteeing data  
accuracy by data validation

### Enhanced Data Visibility

End-to-End visibility of Data by  
Tracking & Monitoring exported  
Invoices in our iPaaS system

### Faster Invoice Processing

Automatic transfer & receipt of  
Invoices into the customer's system  
reducing processing time

**HubBroker ApS** has developed an  
**Integration Platform – iPaaS –**  
which supports EDI and other data exchanges. It enables  
external and internal parties to transmit data securely.

HubBroker Integration exports  
Invoices & Credit Notes from  
Dynamics 365 system to our  
Integration platform (iPaaS). Our  
platform converts, validates and  
exchanges Invoices & Credit Notes  
according to the customer's  
required format and gateway.
