

## Subcontract

CEM Subcontract creates subcontractor's master, manage contract terms & conditions, prepare and process subcontractor purchase orders and generate business reports. It manages subcontract scope, scope break down, payment milestones and change orders.

## Challenges

- Delays in Processing advance payments to your subcontractor.
- Process subcontractor's invoices based on percentage of completion.
- No tracker to know the work center status and activity.
- Manage change order based on invoices received from subcontractor

## Solutions

- Easy tracking and management of Subcontract Services Master
- Allowing flexibility with your work scope using Change Management.
- Work scope capture makes it simple to handle contracts entered with your subcontractor.
- Exercise control over your Purchase Orders based on Scope of Work.

## Features

- Subcontract services master
- Scope change management
- Summarized and detailed reports for all your business needs
- Invoice management
- Guarantee and warrantee capture
- Use wizards to capture subcontractor invoices.

## Benefits

- Control and manage your subcontractor's data using centralized data master.
- Work scope capture makes it simple to handle contracts entered with your subcontractor.
- Anytime inquiry and customized reports for informed decision making.
- Be flexible with your work scope using change management feature
