CLOUD SECURITY MANAGEMENT FOR HEALTHCARE

CHALLENGE(S)

- Apps running outside the scope of IT
- Unapproved apps being downloaded by users from unsecure sources
- Lack a clear understanding of security vulnerabilities and how to remediate
- Little confidence in your organizations readiness to respond to a phishing attack

CLOUD SECURITY MANAGEMENT FOR HEALTHCARE

SOLUTION

- Constant monitoring of your network for the download of unsanctioned applications
- Office 365 secure score breakdown with a roadmap to remediate your vulnerabilities
- Email phishing campaigns to raise awareness
- Antivirus setup with active monitoring and mitigation
- Setup end user data classification to keep track and protect business critical data

CLOUD SECURITY MANAGEMENT FOR HEALTHCARE

OUTCOME

- Strong security posture that drastically lowers your exposure to a data breach
- Confidence in your cloud security and ability to respond to potential threats
- Continuous security improvements throughout your journey to the cloud
- Keeping compliant with all regulatory laws for the regions you do business in

WHY SOFTEL?

DRIVE INNOVATION

SOFTEL's processes support the translation of business goals and ideas into viable services, creating new business opportunities.

WORK TOGETHER

SOFTEL's cooperative approach means they work alongside the client towards common goals all while adding business value.

BUSINESS TRANSFORMATION
