SOFTEL

CLOUD SECURITY MANAGEMENT FOR RETAIL

CHALLENGE(S)

- Apps running outside the scope of IT
- Unapproved apps being downloaded by users from unsecure sources
- Lack a clear understanding of security vulnerabilities and how to remediate
- Little confidence in your organizations readiness to respond to a phishing attack

CLOUD SECURITY MANAGEMENT FOR RETAIL

SOLUTION

- Constant monitoring of your network for the download of unsanctioned applications
- Office 365 secure score breakdown with a roadmap to remediate your vulnerabilities
- Email phishing campaigns to raise awareness
- Antivirus setup with active monitoring and mitigation
- Setup end user data classification to keep track and protect business critical data

SOFTEL

CLOUD SECURITY MANAGEMENT FOR RETAIL

OUTCOME

- Strong security posture that drastically lowers your exposure to a data breach
- Confidence in your cloud security and ability to respond to potential threats
- Continuous security improvements throughout your journey to the cloud
- Keeping compliant with all regulatory laws for the regions you do business in

SOFTEL
