Education: Student wellbeing the most burning issue in education today.

Too many students face problems with anxiety, wellbeing and mental health. Superintendents, principals and teachers lack data and analytics to improve wellbeing and SEL.

School Day enables schools and districts to identify areas in student wellbeing and social and emotional skills that need attention and improvement. Our anonymous wellbeing data supports decision-making in schools and districts, empowering the school community to focus on learning.

Wellbeing and SEL Improves Learning Results. Data and analytics identifying areas in student wellbeing and social and emotional skills that need attention and improvement. Also highlighting the positives.

Supporting schools and districts for efficient prioritizing and informed decision-making, reduces administrative work, cuts drop-out rate and improve GPA.
Schools and district leaders

Wellbeing voice. Self-awareness to promote empathy and engagement. Leading to better learning outcomes and results.

Real-time insights on class wellbeing. Support to guide teaching, pedagogical decisions and early interventions. Leadership based on facts.

Leadership based on silent knowledge and data, instead of gut feeling. Holistic school culture change.

School Day
School Day Wellbeing

Combining kindness with unique AI to help schools and districts develop their school climate by identifying areas in student wellbeing and social and emotional skills that need attention and improvement.
School Day Microsoft Teams

EASY ONBOARDING
Hassle-free school, class and student onboarding with 0365 authentication and Graph API features.

USER ENGAGEMENT
School Day daily questions part of the school day. No need for other platforms and applications. Improving student and teacher engagement and retention.

INSIGHTS AND ANALYTICS
Real-time insights and light-touch intervention recommendations provided through Teams chat and notifications. Positive encouragement messages to students.
Focus on leadership and teaching

Small things matter. Students were not greeting each other in the morning. With School Day the school was able to start a discussion of feeling welcomed to the school in the morning. Students value that the school is interested in their wellbeing and emotions. School Day Wellbeing provides a safe and anonymous platform for all students with high engagement.

More time for leadership and teaching. Decisions and intervention model based on data and facts instead of gut-feeling.

Customer success: Helsingin Suomalainen Yhteiskoulu (SYK)

SYK is an independent grade 3-12 co-educational school founded in 1886 and located in Helsinki. The school has always focused on student wellbeing and social-emotional skills. School Day is an essential platform to amplify student voice to improve whole-school wellbeing together with students, teachers and parents.
