Using the Microsoft 365 roadmap

This guide defines filters on the Microsoft 365 roadmap to help you interpret the data and provides information on how to share, follow, download, and provide feedback.
Overview

With dozens of apps and features, it can be challenging to keep up with what’s new and what’s coming soon.

That’s where the Microsoft 365 roadmap comes in.

The roadmap is the central location for IT professionals, business decision makers, and anyone else who’s interested, to see what’s coming.

It was created to help you plan, communicate changes, and take full advantage of your Microsoft 365 subscription.
Search

Find features by typing in a product, keyword, or feature ID into the search bar.

Search tips:

• The best way to find a specific feature is to search by its ID

• Tags can be used in search and are also filter options

• Keywords, such as “PowerShell”, that might be found in the description can be used in search
Filters

Status
Each feature is assigned a status, which is updated over the lifecycle of the feature.

The statuses of “In development,” “Rolling out,” and “Launched” can be selected above the features.

Here’s how we define each of these statuses:

<table>
<thead>
<tr>
<th>Status</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>In development</td>
<td>The feature is currently in development and testing, and is not available to customers</td>
</tr>
<tr>
<td>Rolling out</td>
<td>The feature is beginning to roll out to the first applicable customers and is not yet available to all applicable customers</td>
</tr>
<tr>
<td>Launched</td>
<td>The feature is available to all applicable customers</td>
</tr>
</tbody>
</table>
Filters

Product(s)

A list of products within Microsoft 365 is provided in alphabetical order. If multiple products are selected, results will show any features tagged with product 1 OR product 2 and so on.
Filters

Release phase
See resources below for more information about release options.

- [Overview of update channels for Microsoft 365 Apps](#)
- [Set up the Standard or Targeted release options](#)
- [Microsoft Edge Insider Channels](#)

Platform
Certain features will be tagged with one or more of the following platforms.

## Filters

Cloud instance(s)

Use the cloud instances filter to select your specific environment.

<table>
<thead>
<tr>
<th>Cloud instance</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Education</td>
<td>Available specifically for Academic customers</td>
</tr>
<tr>
<td>GCC, GCC High, DoD</td>
<td>Government specific dedicated cloud instances that meet different compliance levels (<a href="#">more info</a>)</td>
</tr>
<tr>
<td>Germany</td>
<td>Dedicated cloud instance for German customers</td>
</tr>
<tr>
<td>Worldwide (Standard Multi-Tenant)</td>
<td>This is the standard cloud, not restricted to a certain country or to government</td>
</tr>
</tbody>
</table>
Download

All features
A .csv version of the roadmap is available through the download link in the upper right.

A filtered view
When you apply filters, your download will include only those items.
RSS feed

For entire page
Subscribe to updates for all features on the site, straight to your Outlook or RSS reader.

For a single feature
Click the RSS icon on an individual feature to follow only the updates of that feature.

Follow the directions from your RSS reader to optimize your experience.

More info: What are RSS feeds? | Subscribe to an RSS feed
Share a link

To the entire page
Click the share button to copy the link.

The link will look something like this:

To a filtered view
Apply filters first, then click share.

The link will look something like this:
Email a link

To a single feature
The envelope icon within a specific feature listing will open the mail app with a link to the feature in the body of the mail.
Provide feedback

Feedback button
To provide feedback about the site or existing roadmap items, use the feedback button:

UserVoice
The best place to suggest a new product feature is UserVoice. It allows you to track responses and see if others vote for your suggestion.

Product support
Please contact Microsoft support if you are having technical issues with any Microsoft product.

If your feedback is for a specific feature, include the feature ID in your comment.
