

Room Reservation

Make quick bookings in advance and remotely via room reservation app

What is Room Reservation?

The Room Reservation app provides a convenient way to reserve rooms in the chosen office location. Users can view room schedules and book available time slots in 15, 30, or 60-minute increments.

App Description:

The canvas app is integrated with the organisation's Outlook Calendar and Office 365 accounts. Custom connectors are also utilised to define the functions of the REST API within the app.

App Benefits:

- Effortless reservation of rooms for various functions.
- Reserve a conference room in advance while booking it remotely.
- Easy implementation through integration with Office 365 and Outlook Calendar.

App Features:

Editable event name and description.

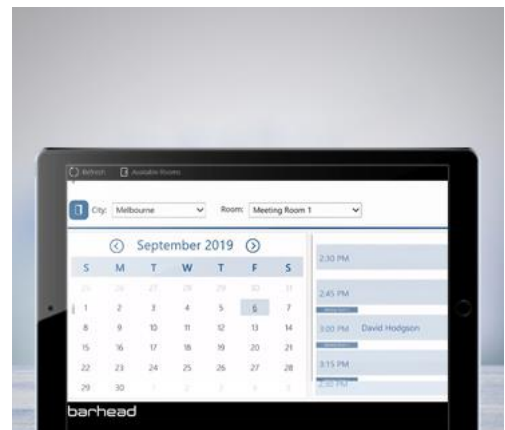

Email notifications for all attendees.

Viewable schedule for each room.

Security through organization's Office 365 account.

Offerings and Delivery Models that are Tailored to Specific Demands

Leverage Microsoft Solutions and Realise Value Faster

Advisory Services
