On September 14th 2016 I made a decision to change my life to a Healthier life style. At 45 I started at 305lbs with a waist size of 45 inches body fat of 60.1 percent. Fast forward to today. I have stuck with it and on September 14 2020 will be my 2 year anniversary. At 46 soon to be 47 I currently weight 214lbs waist size is 34inches body fat index of 22.2. I lost most of the fat and built lean muscle. My goal is 200lbs with a 14 percent body fat index. I would like to send in before and after pictures and a more detailed journey of my life style change. I want to give many thanks to our Wellness program for their continued ongoing support for health and wellness. Your emails and website great. I use them weekly if not daily at times.

Prior to Healthper we had very low wellness engagement due to disperse locations, scattered program sites and multiple demographics. Healthper’s team helped us defined our three year wellness strategy that was very specific to the needs of our employees at the 6 locations. Before Healthper we had to deal with the administrative overhead to transfer any earned rewards to our multiple HSA providers. Healthper aggregated all the program needs in a single portal and reward earnings into a single source, and sent the specific contribution reports to the HSA providers. Using Healthper was like having full control of decorating each room separately in a large house but yet having the power to see all of it together.
Healthy You Program

Healthy You well-being program allows to create uniquely tailored program from a list of available features and configure the incentive model for the participation and/or outcome-based program. The program includes,

Program Management
Healthper Program Management

• Healthper Program Management oversees the entire client engagement, from the wellness program implementation cycle to ongoing program monitoring & evaluation.

• Healthper assigns a dedicated account manager that maintains a direct and responsive relationship with the client’s HR team.

• The lifecycle of a client engagement begins with initial discovery meeting to fully understand client needs and long-term goals, the implementation cycle whereby the wellness program is constructed, configured, and deployed, and the ongoing monitoring, evaluation, and guidance.

• Client HR administrators receive regular reporting for complete program visibility.

• Ongoing responsive daily support is provided for all member inquiries.
Healthper Program Management – Client On-Boarding

• **Kickoff** – Initial meeting to review client wellness program needs, selection of options (e.g. biometric screening, eligibility feed, branding, rewards, etc.), and scheduling of implementation to meet client requirements.

• **Implementation** – Project plan devised and reviewed with client. Weekly client meetings scheduled to ensure all required artifacts and integrations are achieved on time. Communication plan devised and scheduled, with assets provided.

• **Pre-rollout** – Confirmation of all requirements satisfied, including branding mock-up review, external integrations, finalized member communications, etc.

• **Rollout** – Wellness program live on web and mobile platforms, review by client. Upon confirmation, member communications sent for official access by population.
