

PCF - Kanban

Barhead's Power Apps Component Framework - Kanban View (PCF-Kanban) allows users to view and update records in Dynamics 365 in a card or "Kanban" view

Barhead's Power Apps Component Framework - Kanban View (PCF-Kanban) allows users to view opportunities and projects in a card or "Kanban" view. The PCF-Kanban is part of Dynamics 365 Project Service and Sales Hub entities which enables users to easily update records by dragging and dropping cards to the targeted swim lane. Through this app, users can apply filters according to a list of records and hierarchies.

Types of Users:

- Project Managers
- IT Managers
- Management
- Sales and Marketing

Business Outcomes:

- Visually appealing dashboard
- View and update records via cards or "Kanban"
- Easily update business information
- Drag and drop capability

Barhead is a specialised consulting firm focused on delivering business solutions leveraging Microsoft's Technology Stack. As a leading Microsoft Business Applications Gold Partner, Barhead covers the diverse product offerings from Microsoft and the broader ecosystem supporting our customers to modernize their systems and processes.

Barhead provides global support for customers, providing deep expertise around:
